

St. Pious X

**Degree & PG College for Women
Reaccredited with 'A+' Grade by NAAC**

**ALUMNI
REFLECTIONS**

From crying on the first day
To crying on the last day,
A refreshing realm of knowledge
That is my college.

From lecturers who were so loving
Who gave us wisdom to grow our wings,
Each lecture set our imagination ablaze
Helping us solve every difficult maze.

From friends bunking lectures together
To hog junk at the canteen altogether,
Gossiping and giggling in all the ways
Added spice to our college days.

Where education was mixed with entertainment
At college learning was never a punishment,
Where fun and pranks were never a strife
Those were the best days of my life.

Geralene Maria Thoy BA (PPML) 2016-2019

Hello everyone... sharing my thoughts and feelings over the place I spent for 3 years is something very special. St.pious is totally other world for me. It taught me so so many things which I couldn't learn from the outside world .. There were many ups and downs as every one has. it was very hard for me to fit in I seriously don't understand how these three years have passed . I don't know how well I connected to my friends but 6 th sem was my most beautiful dream every one stayed together we enjoyed as we know that this are our last moments with each other and in college . I may not be close to everyone in my class but am damn sure gonna miss all the idiots very badly and literally tears are rolling down my cheeks writing this and thinking that our college days are completed . faculty was the best . am very grateful that am their student am gonna miss Aarthi mam and malathi mam very much thank you am for bearing with me .. I enjoyed every moment in st.pious with uh guys . getting apart from uh guys will make a void in my life .. Miss uh everyone and I love uh to the core guys 😊😊

- Navitha Nayak B. A. Epp 2017 - 2020

I remember when I was entering my first year of graduation, I was extremely excited but at the same time extremely nervous. Reflecting back on the whole experience now, I would anyday want to relive those amazing "college days". A shoutout to all my amazing friends and lecturers who i miss to this day. Going to a college especially one as prestigious as St.Pious was a wonderful experience. It was an opportunity for me to learn not just about the world around me but to learn about who you are and what you want to do in life. At times, it was challenging and some days i wondered if i was on the right path. Regardless, I made the most out of the experience and embraced every opportunity for growth that came my way. But most importantly, I remembered to have fun. - Lisa Reid (PPML 2013 - 2016)

College life is known as one of the most memorable years of one's life especially graduation.

I have enjoyed my college life to the fullest. One of the best thing about college life is that you get a new experience everyday. I love the environment of our college. Our faculty was commendable. I always loved the way they handled the students. It was a great experience to learn from them. I have spent most of the time in our block because it is located in the corner of our college an it brings peace to me always. I enjoyed a lot with my classmates too. Though we used to get very few leisure hours, we always lived them to the fullest. All I could say is college was one of the best experience one could ever have and I got to learn many things which indeed is helping me both in my personal and professional life.

CH.NAGA SIRISHA

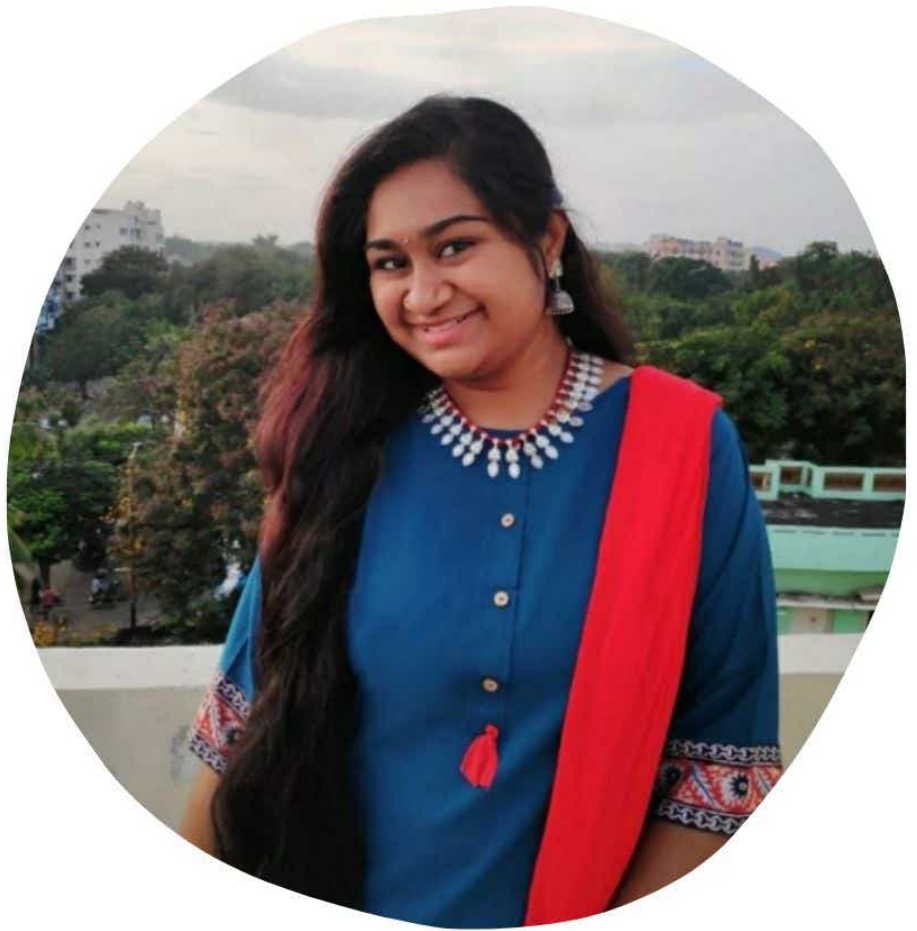

BA(PPML)

2016-19

College life is the life when you start focusing on your career and your dreams. I joined St. pious X degree college to pursue my under graduation from 2017-20. It is a golden phase of my life as I learned and experienced so many things from attending upsc orientation in Chennai to student exchange programme in PDPU gujarath. How quickly time passed by and here we are at the end of this amazing 3 years which I have enjoyed and learned so much and made friends for life. As I look back now I have made the right choice of joining this college. Finally it's our graduation with lots of memories and great hope for our future. Spoorthi B. A.
Epp 2017 - 2020

As soon as someone talks about the best days of one's life, I am sure they're referring to their school or college days. That is rightly so, when your days were as fun-filled and memorable as what I had during my three years. I always look back at St. Pious with such a happy feeling, for the innumerable joyous moments it has gifted me with. The lecturers who were ever supportive and always asked us to focus not just in studies but extra curricular activities. The extra push that they gave us, combined with the support of our friends ensured that we had the most wholesome three years of our life. Dramatics, sports, literary activities, seminars, inter college fests, nothing was left untouched by us. We explored our interests and discovered our talents which some of us didn't even know we possessed. Like a breeze, the three years just ended, and yet the bond we created with St. Pious continues to grow stronger every year. Truly a place that empowers women!

- SREE PRIYA IYER (PPML 2013- 2016)

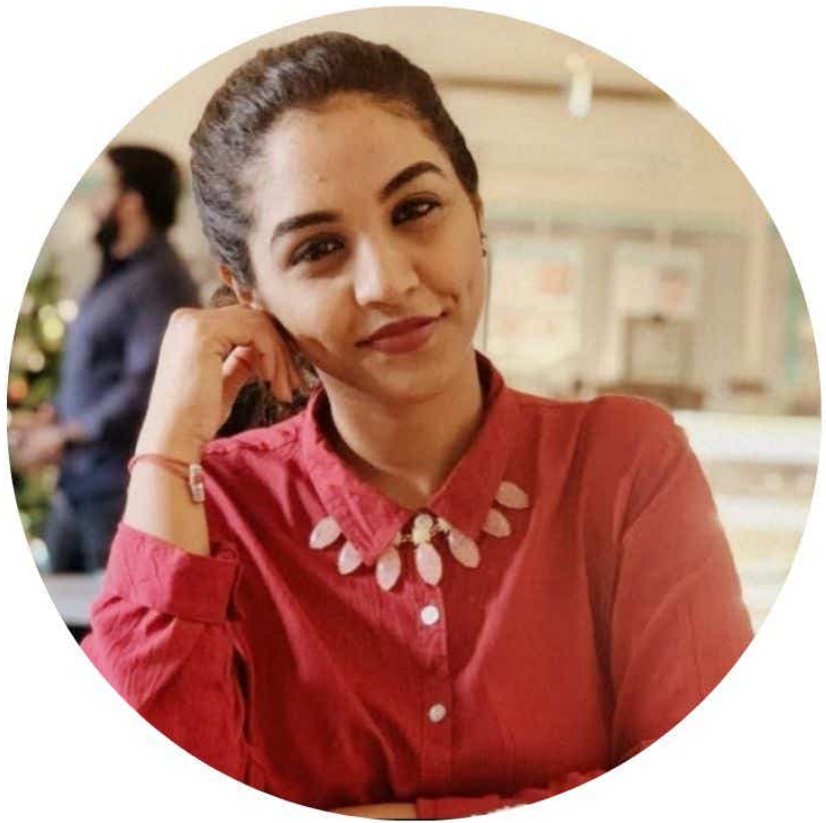

St.Pious has changed my life to an extent that I did not expect it to happen on the day I entered college. Coming from a Co-Ed atmosphere all my education life before my Bachelor's, I was way too sceptical about entering an all-girls college looking forward to a lot of change in many ways negatively. But today if I stand like a woman groomed and witty it is all because of St.Pious. It taught me not just academics, this college made me confident, graceful and learned. From understanding my passion to learning from my mistakes, Pious played a huge role. A special mention to all the friends I made and our beloved lecturers' thanks for standing in all blues that I had during my college life. It was a great time at St.Pious and joining this college has been the best decision of my life. -

Pratyusha . Y 2013-2016 (MPML)

I chose teaching as my career. Discipline, Inspiration and Encouragement are some of the important qualities that my work demands. St.Pious stands tall in providing the students with such vices. Those three years were the most rewarding years of my life. St.Pious helped me to carve my personality in a better way. The faculty were very encouraging, loving and responsible towards us. Interacting with the faculty and observing their approach to ideas of discipline, assessment and teaching was thoroughly rewarding. Many such things that helped me grow were not explicitly but extensively taught. What makes St.pious special is that it not only helps you improve your knowledge but also your wisdom and personality.

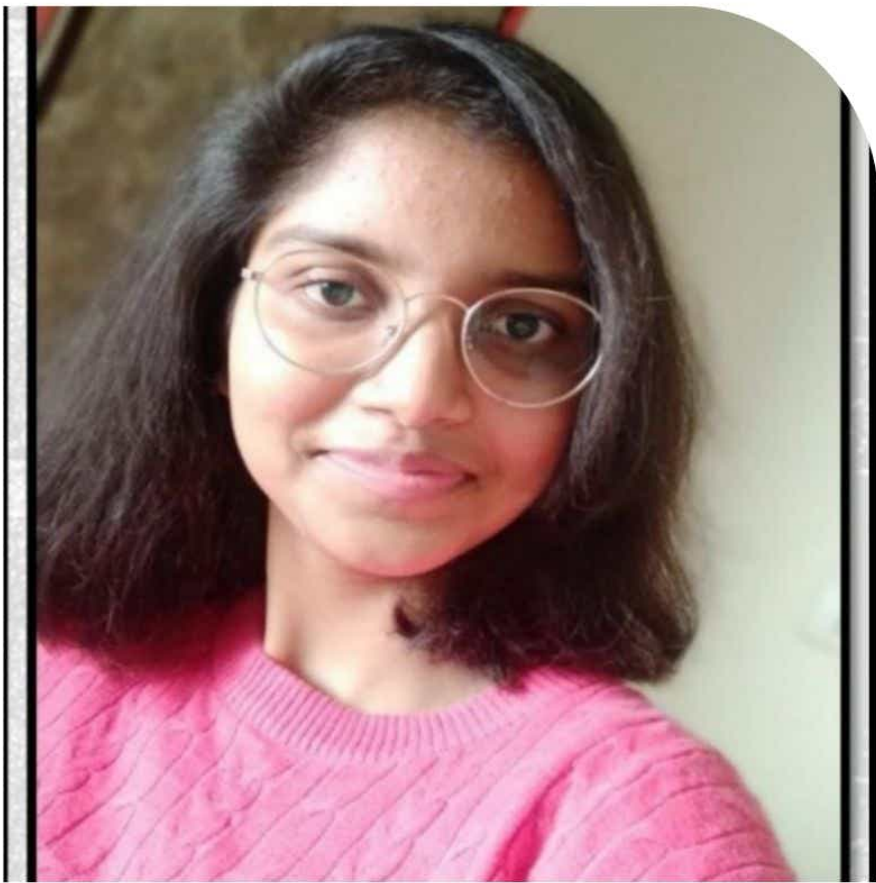

- Jahnavi Kattekola (MPML 2013 - 2016)

My reflection as an ALUMNI.. Aahh..., what can I say. It feels like I have left part of me at college, at St.Pious. This college gave me my today. A dream to live and embrace it. It gave me leadership qualities. It taught me that being disciplined is important to lead a healthy life and more over IT thought me how to be happy. I look at my college textbooks, pictures or pass across the college street, it still feels I just graduated yesterday, but to be honest it has been 6 years now. Wow! Already 6 years...!!! We take things for granted and easy while in college. Complain too much. The truth is once we are out in reality and done with golden days you always want to go back to that beautiful place. You know why? Because there is no such happy days ever in later life. The day I joined St.Pious, I was bit sad thinking I lost my opportunities but college gave me a dance platform that led me pursue Dance and entertainment as one of my professional job, maybe I could call it full-time. Nominated and elected as President of College led me to start my own podcast show. College teaches you a lot that nothing else can teach you. If you ask me "What will I do if I have a chance to turn back in time?" My reply will be, "take me back to St.Pious and cherish the years 2012- 2015 again."

REFLECTION” to them “CHEERIO” to me So, here I am sharing the most cherished moments in my life. My journey in St. Pious was quite unexpected, as it was an impulsive as well as the smart decision of mine. I clearly remember that after my 12th, things happened in no particular order and wanting to take life sciences in my bachelors I landed up in Arts (what they call it a “destiny”) And as for what I am known as “LATE COMER” I was the last student to join the batch (will definitely gonna change this habit). I literally had no clue as of what was actually going in my life..everything was soo alien to me. But my amazing lecturers were so aware of me that literally they helped me overcome my indifferent feelings in every way possible. When I look back on my life, I really find a different version of “ME”, who is much more motivated, matured as well as trying to be independent. Pious has given me an amazing platform to develop my skills, explore my talents and also transform into a better individual. I’ve met the most amazing girlfriends in my life who will always have my back (love you all). Just wanna conclude that I owe a lot to Pious, who has given me the most beautiful journey which will always be cherished. This is the most unusual way of getting farewell (lol). But I am definitely sure that our batch will be remembered for being farewelled in this way. THANK YOU PIOUS for being a beautiful part of our lives as well as making us a part of your life. (you will be missed) LOADS OF LOVE - Nayala Sadaf – BA(EPP) 2017 - 2020

FROM VANITY TO SANITY ▪ Well, penning down my feelings about our college and bidding adieu is quite overwhelming for me. Never in my wildest dreams did i ever imagine that someday I'd be graduating from St.Pious College.I always dreamt of me having done my graduation from the “Ivy league schools” but as fate would have it,here i was beginning my new journey in the Pious family(As they say,everything happens for a reason). Flash back to 19th june 2017,the first day of my college,I had mixed feelings the moment I entered the college gate. Everything is still vividly sketched in my memory. one was that day and one is today ,I see myself having grown a zillion times. I owe a lot to St. Pious for giving me an immense opportunity to explore my potentials and help me become a better version of myself. The college has given me a bunch of besties for lifetime, loving and caring lecturers,values and most importantly the tag of “PIOUSIAN” which I’ll be cherishing till my last breath. Each and every moment spent in college in my memory is as fresh as strawberry plucked from a creeper. In the coming times I wish I will be able to get a pic of mine clicked on the bridge connecting block1 and block 2..The only unfulfilled wish I have!!! Well this is not how we expected our farewell to be but we are happy because this one is gonna be one of it’s kind and the most unique farewell of all times! -

ANUSHKA .P .B. A.(EPP)

So, here I would like to put down the most funniest and cherished Moments of my journey in “st.pious” I still remember the first day of my college i.e.(26-7-2017) I was nervous and very quite for the couple of days when I entered the college And ,I was a backbencher😄 . I always use to bunk my language class and sit in the backstage and canteen! Lol!!. I got the best gang to chill out in st.pious Life. And coming up with the lectures, my class incharge “Aarthi maam” always Guided us with good knowledge and ethics. My st.pious life is filled with soooooo much of fun and craziness Apart from studies I enjoyed alot in these 3 years of my degree life.As I was a late comer to the college ,my maam always use to shut the class Room door ! And we even enjoyed by sitting out side the classroom!! And I miss all those memories. Me and my friends were very naughty and we Always irritated our lecturers with our lame jokes and making sounds from Last benches. And most painful thing is we missed the last couple of months Due to this pandemic situation. At last I miss my beautiful friends and ma’am’s Who supported me . Just wanna conclude I “owe a lot to pious. THANKYOU FOR EVERYTHING “PIOUS”. Sravanthi busi ▪ BA (EPP)-2017-2020

I am very grateful to St. Pious college for making my graduation times one of the best times in my life. It has shaped me to who i m today. It has structured my identity and boosted my confidence by making me aware of my strengths. One of my greatest achievements has also been in this college from being awarded for academic merit to being awarded as "the best all-rounder" and taking up leadership role as a council member. All of this would not be possible without my teachers, the backbone of the college who are extremely supportive and encouraging. They have guided me in choosing the right career path for myself. The college gives us a beautiful environment to grow as a person. Apart from academics, the College also focuses on co-curricular and extra curricular activities for the overall development of an individual to think free and be an asset to the society. Last but not the least the college has given me the sweetest memories with my friends and classmates, the bond that will last a lifetime. The college, my teachers and friends have been the major architects in moulding my personality.

Lastly, I would like to say that, the greatest achievement of one's self is not only the victories that one has achieved but how better a human one has become. Thank you for making me a better human.- Aishwarya Jinde (PPML 2013 - 2016)

I am very happy to Share about my journey in St.Pious. I completed my under graduation of 3 yrs in St.Pious. Choosing St.Pious for my under graduation is a right choice I have made after my inter. I just got best lecturers and friends with whom I can share everything. I have many best memories in the college like women's day celebration, chitchat with friends , using mobile with high risk . I will miss my friends and lecturers. St.Pious is the best place for under graduation... - Ruchitha B. A.

Epp (2017 - 2020)

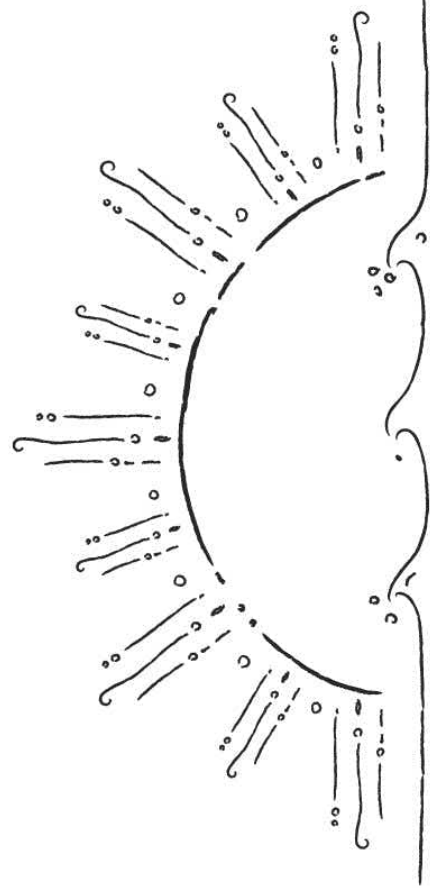

The years at St.Pious are always memorable. I take pride in being the first outgoing batch of Psychology, Mass Communication and Literature. St.Pious has played a major role in molding me as a better individual. The journey at St.Pious is full of precious lessons and experiences that allow a student to increase her understanding and development. As vision of the college is “to empower women through holistic education and function effectively as competent, socially committed and compassionate individuals,” St.Pious has not failed to keep up its vision. The college and the faculty have truly empowered each of its students to be committed and compassionate. It has so much in-store for the students to participate in various sports and other cultural activities. The three years at St.Pious will be cherished throughout. I am proud to have been a part of this amazing “Piousian” family. - Pearl Manogna Anand - 2013-2016 (MPML)

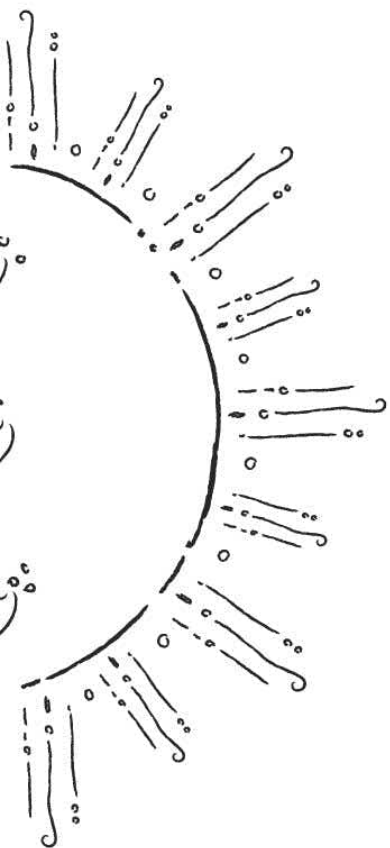

And that has made all the difference ... I am here almost doing life: pretending to make away, almost living through this maze, I still haven't begun. From Freshers to now Farewell, life just happened, in a blink of an eye. Three year ago, this was never my option nor what I really wished for. All I dreamed was to fly off to continents like my peer and graduate from MIT. But this decision to be part of St Pious was a complete flip. Life is like a Ferris wheel. one minute you feel like you are at the top of the world and other you feel like at the rock bottom. But can we avoid it? NO. It's a spinning wheel, sooner or later it always comes around to where you started it. And now when I stand in front of the gate hitting back to my first day that filled with all sort of denial and regret is quite different from the present. Because this was journey to cherish lifelong. From being class rep, college day, resonance, pretty little wars, lunch breaks, break-ups, walk-n- talk, EnRoute excursion, the list goes on. The college campus, the stairs that took our breathes to get to classes, the hostel where non ductile bonds were mended, our classrooms where secrets were buried, the canteen which sheltered our recesses and various parties, and last but not the least my comrades and my lecturers' guidance have become decisive elements in my life. it was a journey of infinite liberty, luxury, enjoyment and adventure where we had a chance to build on our character. Piousian is not just a name, it's an emotion, pride and most of all an entitled family. Little by little, day by day this journey had made a piousian and brought me a family. So, was it a regret anymore? No, because now I say "two roads diverged in a yellow wood, and I-I took the one less travelled by and that had made all the difference" N

Gangotri (EPP - 2017 - 2020)

Here ,I would like to put down my feelings and experience that I had with our college and faculty. My journey in St.Pious X Degree College was just like a roller coaster. I had both eidetic and awful memories with our college, faculty, and friends. I would remember ST.PIOUS for all my life has it gave me beautiful friends .I didn't had much connection with the faculty and college because as my "in-charge" (ma'am) knows better that I was very much irregular to the college. Anyways the funny thing which I had in final year was me becoming CR that too unanimously, unforgettable part in my three years of journey. I received lot many scoldings also few compliments. I thank Ms. Aarthi Deepak ma'am (class incharge) for guiding me right from first year. Most painful thing is that we couldn't enjoy our last three months in the college with friends and faculty because of this pandemic.On the whole I had a beautiful journey. thank college management and faculty for giving me the opportunity to share m y feelings and ex pe rie nce i n th is w ay. -Priyanka kokkula - BA EPP(2017 – 2020)

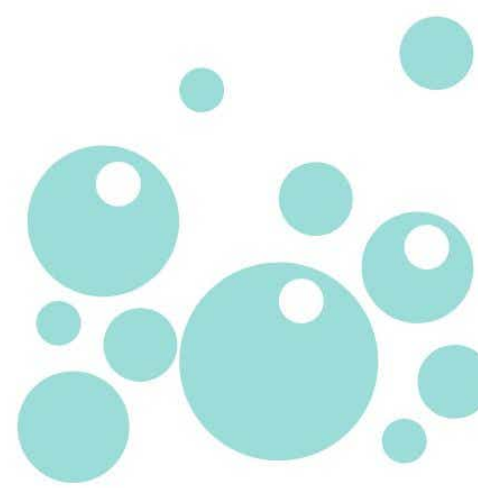

As I begin my college journey it really offers a wonderful opportunity to reflect upon what I aspire to accomplish and learn from my college experience beyond obtaining a degree. When I joined in the college very late I used to be very introvert but by the grace of God I started Mingling with friends. I love faculty who always motivates and stand by our side. And when time passed I became too committed towards my education, focused .Pious is really a great platform to have a bright future for those who aspire and a first step towards the great career. Pious taught me many good things which I shall never forget and to my surprise I got my MBA seat in St. Pious college. I felt blessed to get such a golden opportunity to learn good things further. But I really missing my friends, faculty education those days are really awesome.

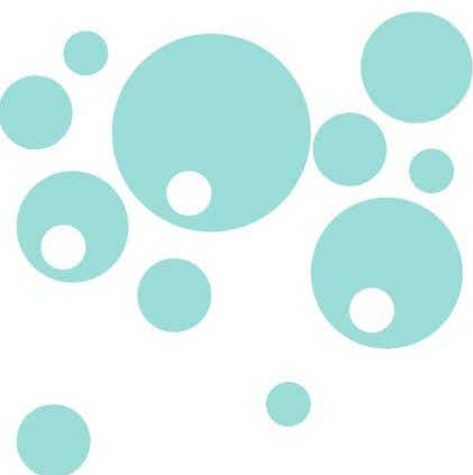

Thank you Pious for making our career more brighter ♡ ♡

-SWATHI
BA(PPML)
2017-2019

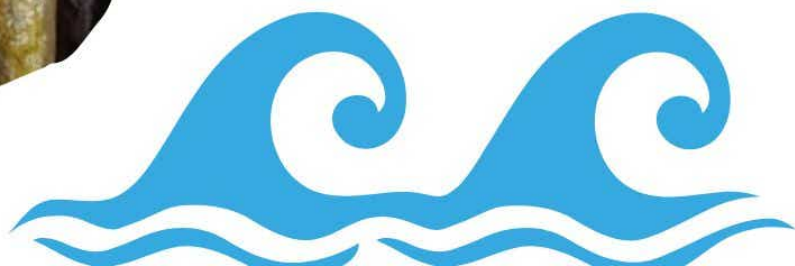

Finally I completed 3 yrs. of my under graduation in St.Pious . When I started my journey in the college I was very nervous at the moment Sultana ma'am supported me so much. Fortunately I was blessed with good lecturers and friends. Playing Ludo and chain reaction, spending time on projects during NAAC , Gujarat trip with Malathi Ma'am are the best memories of my under graduation. Aarthi ma'am supported me and guided me in every aspect. St.Pious gave me one of the best memories of my life . Chandrika. G B. A. (EPP)(2017 - 2020)

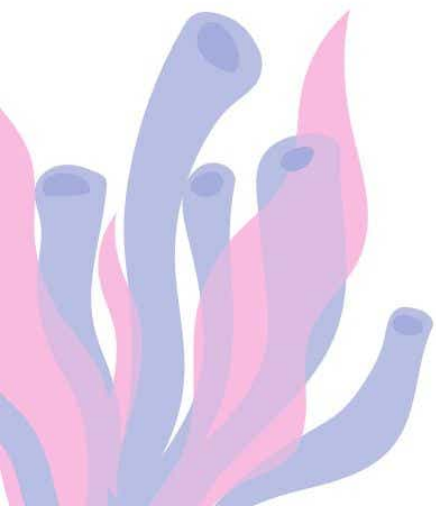

Teenage, where we spend whole lot time in learning and Exploring. So, for the same I chose St. Pious X Degree and PG College for my under graduation from 2017-2020 .College starting with Prayer and academics with great guidance of staff and all the days to explore something new by attending different seminars, orientations, fests etc.. Where started with UPSC seminar in Chennai and ended with student exchange program in PDPU, Gujarat.

Meanwhile time flew off running after classes, assignments, internals exams, results and placements all gave us experience filled with different emotions. But in all this always with us are our friends to change every bad mood into smile. Finally completing graduation with lot of memories and with great hope for future... “The fear of the lord is the beginning of wisdom” Proverbs 9:10 - Spoorhty Victory B. A. Epp(2017 - 2020)

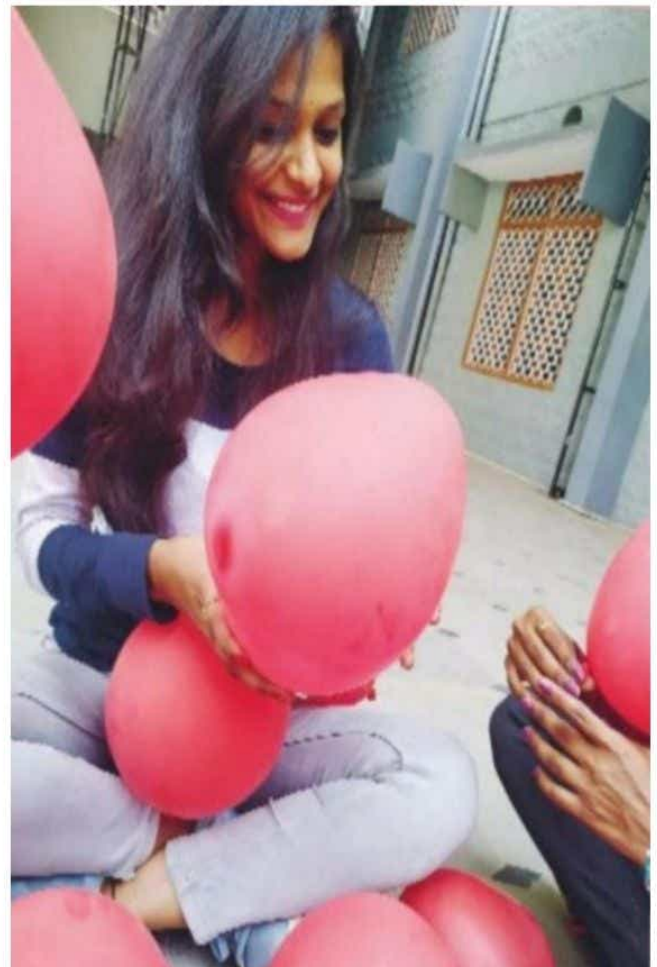

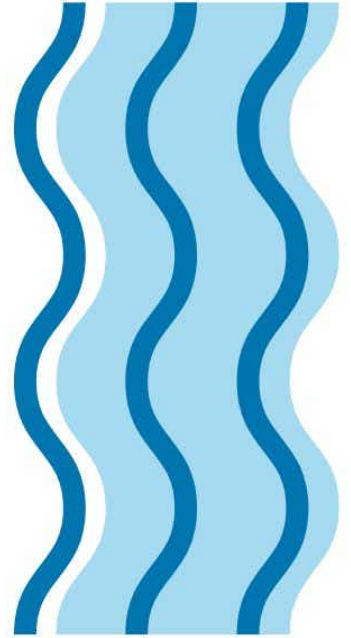

College life prepared me for all of this. It's a perfect blend of joy and hardships. Meeting different people, interacting with them, learning their culture and grown as a person.! I learnt sitting through a boring lecture and tried to cope up with strenuous syllabus, and I had opportunity to learn from some great research minds. There are moments that never fade. The friends I made in college life is most important spectate gave me strength. It is a fascinating panorama of enjoyment, freedom and friendship. Sweet memories and pleasures of college life are simply amazing. The first and the last day, group Of friends, unexpected holidays, functions of Curricular and extra-Curricular activities and adventures at hostels make College life the most memorable and unforgettable part of life. I miss those every inch of memories.. - V. Shivani B. A. Epp(2017 - 2020)

This is great opportunity to share our feelings and thoughts. Thank you “pious” for this graduate life .Its been 3 years in this Wonderful place and learnt a lot . Its means a lot .No matter What it taught us wonderful lessons and gave good great Friends . The things we did , the lessons we learned are unForgettable. St . Pious Thanks for wonderful lecturers given to us in fact not lecturers they are friendly natured and guided in all the manner. Thank you St . Pious management and all the members of St .Pious family . This is not a ending but a great start for pious students. Major missing of all . Very proud to be a PIOUS student.
D. Lakshmi Devi B.A EPP(2017 - 2020)

Every thought, every moment, every feeling has got its own essence, however one such lot of moments is college life. Already deciding before filling the admission form but ending up joining an unexpected college is a prevalent reason for most of us, but then, it's a proud satisfaction for me as I have had my greatest moments living in a college of my choice. To begin with, everything was new back then, then with the passage of time, there were friends, punishments, arguments, difference of opinions, competitions and these reasons combined together was who we were as a college. It was a beautiful journey in St Pious college, especially the journey of leadership which will be cherished forever. One of the best things which was learnt from Principle sister Velangani was to face all the hard time situations with the smile on the face which will make the hard times pass easy. Well, I would say St pious taught me how to be a real time hard worker and help others when they need it. I will never forget the vision of the college which was repeated every day during assembly which taught me how to empower oneself with education which was not merely classroom education but it was even about worldly morals. Faculty, college staff, all of them are unique in their own ways, and the best part is every word or advise does make a lot of sense right now as we did not have the wisdom to understand their words of betterment for us back then. I would like to thank all lecturers and sisters for guiding me and getting the best out of me.

Liya Simran
B.Com(cs) (2016-2019)

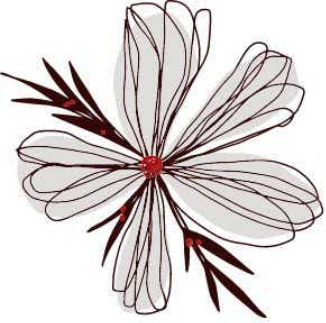

Through my St Pious college experience and my reflection on The Scholarship of Teaching and Learning Reconsidered, I have come to recognize several ideas that have greatly impacted me, my views on learning, and my actual learning. My overall experience in college has been beneficial because of the teachers who approached teaching with a more conscious effort and taught me to approach learning and my role as learner in the same way. Entering St Pious college, I assumed that my professor were teachers who would pour their vast knowledge and understanding into me, an eager and willing pupil. I entered with expectations of challenging, thought altering course work and stimulating lectures. I envisioned understanding things I could never grasp before. It was not that I was excited just by the idea of learning new information; I was excited also to be taught by experts. However, I had little understanding of the roles faculty members played in the university setting, how learning really occurred, or what teaching even was. I thought professors were foremost teachers without other professionals obligations, that teaching was the dissemination of knowledge, and that learning was a passive affair.

Laxmi Prasanna

M.sc bio chemistry(2018-2020)

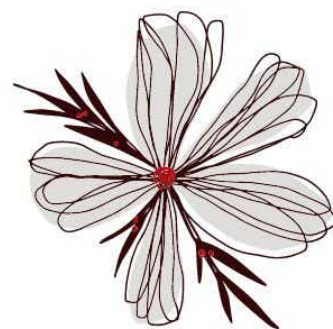

A college degree is not a sign of a finished product but an indication a person is prepared for life." — Reverend Edward A. Malloy, Monk's Reflections College was an amazing experience coupled with lots of learnings and memories (seminars, events, fests!). St.Pious helped shape my future and provided me with opportunities to hone my leadership skills. My faculty became my family and I feel lucky to this day that I had an opportunity to be taught by Rajashri Ma'am, Anita Ma'am, Monoshri Ma'am, Annie Ma'am and Malathi Ma'am. The values they inculcated with their teachings became the foundations of my career. Rev.Dr.Sr.Nirmala's trust and confidence in me always pushed me to move out of my comfort zone and constantly deliver results. I met such amazing people and made some amazing friends who are family now. Pious was a treasure trove of knowledge and to this day I am a proud Piousian.

G.KrishnaPriya

Program Manager, Amazon

BA PPML (2011-2014)

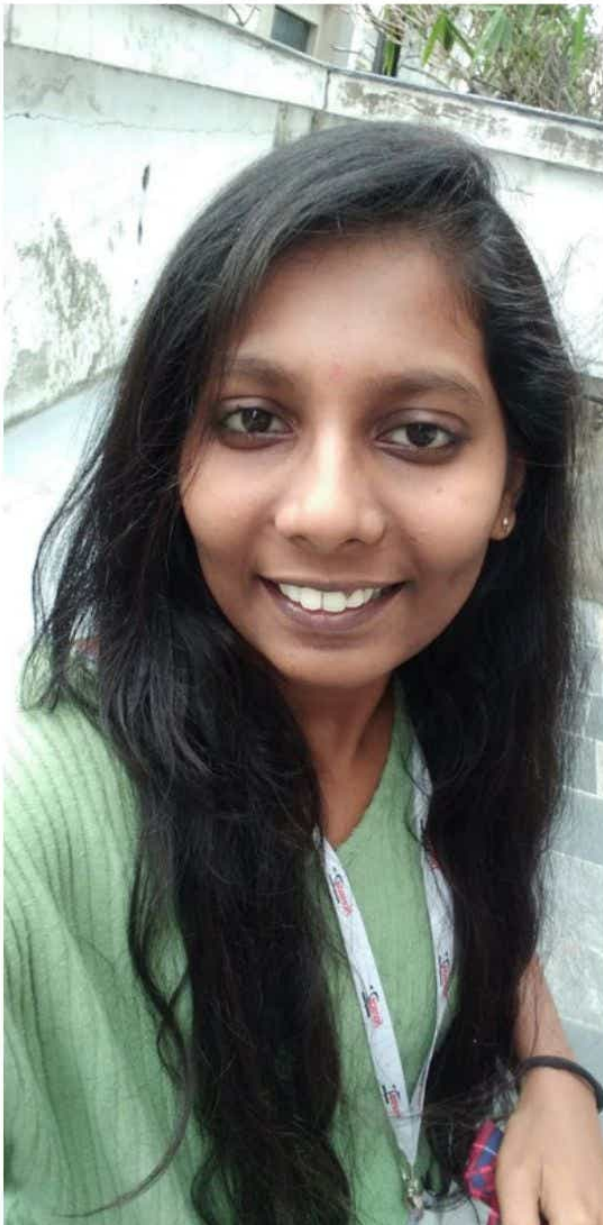

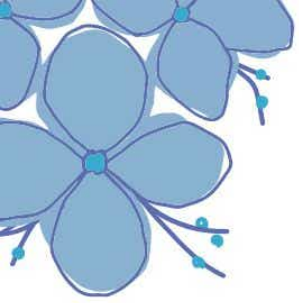

Good Old Stories:

St. Pious plays a significant role in transforming me from a silly girl to a confident woman. Those three years in college passed by immersing me with knowledge, patience, and, top of all, the management abilities (both organizational & emotional) necessary to compete in the real world. I am highly indebted to the entire St. Pious Family, particularly to my Mass Communication Department, for making me what I am today. I have attained real-time experience and exposure to various forms of writing for College Radio, writing for news articles, etc. Being a psychology student, all I have learnt is Introspection, which made me analyze myself and love & accept myself as a person. I will always remember my lecturers who made me love English Literature & motivated me to pursue my higher education in it. Those are the walls that made me discover a writer in me. Pious makes us get ready to survive and face the fast-paced world. Still, those good old days are the lights of my career and life. I owe to St. Pious. I can say that it's not just a place to study but a family to hold on to A Proud Piousian
(The most naughty MPML Batch)

- Likitha Alladapu

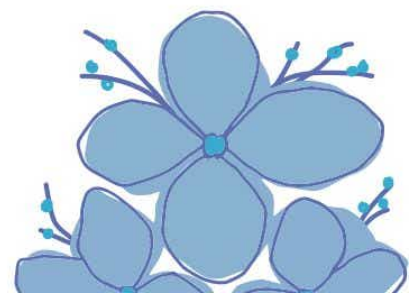

B.A MPML (2015-2018)

An educational institute not only builds the career of a student, figures the overall personality of that individual. I still remember the day I took my first step in St. Pious X Degree College which was a divine feeling. I am thankful to my bhaabhi Dr. S.B. Gita Narahari for joining me there when I was clueless what to do next. I couldn't have made a better choice. The discipline assimilated in the hostel and college is equivalent to any defence organisations which is indispensable at an early age of every student to grow up into a good human. Teachers and Sisters played a significant role in developing interpersonal skills and reaffirming my intellectual and scientific contributions and was afforded ample autonomy to carve out my own path. I owe whatever I am today to St. Pious College where I was shaped and given the best opportunities to reach the heights of becoming an assistant professor in a central university serving the tribal population through higher education and research in public health.

Dr. Parikipandla Sridevi
Assistant Professor, Dept. of Biotechnolog
Indira Gandhi National Tribal University
MGC (2000-2003)

Greetings,

St. Pious definitely holds a special place in my heart. It helped me evolve; gave me numerous opportunities to work on my assets. There is a place for everyone here. I was able to create a niche for myself. The Faculty at Pious are great facilitators. They ensure that your voice is heard. Your contributions will be well acknowledged and appreciated. I was awarded the best out-going student. I was the president in my final year, Vice-President in second, and Class Representative in all three years. These experiences shaped me as a person, and I can see its influence to this day. I got better at my communication. I was an active member in the Theatrics, and I developed the art of persuasion. This place helped me to build my confidence as well. If you're willing to work on yourself with the right attitude, it will bring out the best in you.

I passed out of the college with distinction and then got into the English and Foreign Languages University, Hyderabad. I'm currently working as an English Trainer. I have students from different curriculums and ages, helping them acquire the

English Language.

CATHERINE CHELSEA

BA : 2015-18

A college for effective teaching and guidance in all aspects of student life with conducive atmosphere for learning, making its students to face the challenging world with ease. I believe, an individual to be successful in life needs development in five significant areas. They are: Physical, Mental, Career, Social and Spiritual Development. St. Pious has become successful in providing all-round development to its students which is also one of the reasons to achieve 'A+' grade from the NAAC Peer Team - 2018. Well, I always said and continue to say that St.

Pious is the best part of my education. A college which is difficult to find elsewhere! Wherever I am and whatever I do, throughout my life I would like to carry and apply the values and morals taught by St. Pious.

A.Vamshi Sai Priya

Associate , State Street Corporation

B.Com (Computer) (2015-2018)

Being called a Piousian was itself an honour , even to this day it feels the same to be called a Piousian. No other place I'm Hyderabad could make me feel safe and at home but St.Pious.

St.Pious.

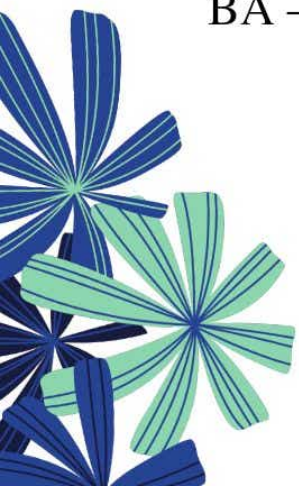

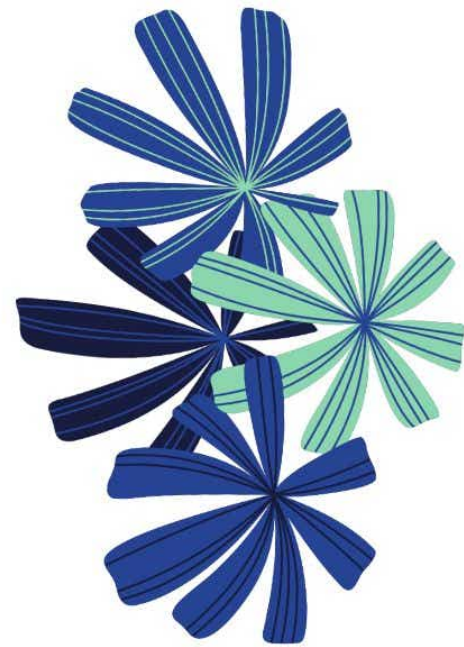

I remember discovering my potential and converting all my flaws into my strengths.

Representing St.Pious at different Colleges, winning the Competitions, and returning back with those Trophies holding our heads high was no less than a Lifetime Achievement.

All the lecturers were very Strict for our own good, but when there was an outsider we face, in no time they would convert themselves into a lioness protecting her cubs.

All I want to say is St.Pious made me worth it.

- Khetavat Kavita
BA –MPML (2017-2020)

I am elated to be a student of St Pious. The college has provided me an enriching learning experience in academics and the significance of co curricular & extra curricular activities enhanced my confidence and overall personality. During my stay in the hostel, I learnt adjustment, team work and being social. This experience has led me to competently face the challenges of life. St. Pious has moulded me into a holistic individual. I am ever so grateful to God for giving me an opportunity to be a part of this great institution.

A. Thirumala

Assistant Professor Physics

B.Sc MPCS (1998-2001)

Journey of a Student to Pouisian

The 3 years journey is a package filled with memories, lessons, mentors and friends. St.Pious gave me an all-round experience that constantly keeps me a step ahead at my work place. The discipline created a groundwork for not only my job but also for my life. The management recognises every student's abilities and guides them accordingly. The platform to be creative, organised and on par with current developments helped me to be aware and focused towards my growth. An exposure to a healthy competition in multiple aspects helped me to explore my talents that prepared me for the future. While I learned to be efficient and accountable, the management encouraged me by giving different opportunities and recognized all the hard work. The lecturer's stand as an example for all the young students to believe that women can pursue anything and everything along with personal responsibilities. I am proud to say that St.Pious created a safe place for me and my friends to grow into the women who can achieve what we dream.

- B. Soumya

B.Com(Computers)

Batch: 2013-2016

Proud Piousian...!

I solemnly swear that whatever I testify here is all genuine and in truest sense all the way from my heart.

Because the respect and love I have towards Pious is Pure.

I joined Pious for my Master's degree and feel very grateful as it accounts to one of the best decision I've made for myself. But a small regret that I had all the time was, why didn't I enroll myself for graduation too at Pious. I love how humble and helping the lecturers were at each and every step. Even while completing our Master's we were encouraged so much to take part in extracurricular activities and they made sure they conduct both stream related and off stream activities so that we come out and showcase our talents.

Talking about the campus and the infrastructure, it felt like a safe home, warm and welcoming.

Library was a dear place too, canteens coffee was an absolute must have.

The hallmark of this institution which I can swear by is No matter how small or big your talent is, at Pious it will not go unnoticed. You will not only get an institution to cater your education, but you will receive a grandstand to address and polish your talents.

SUBIYYA (2018-2020)
MSc MICROBIOLOGY

Coming from a small town with many goals, Pious helped me channelize my ideas & realize my dreams. Like many, I entered into graduation, unhappy with my childhood dream of becoming a doctor still on my mind. The faculty at Pious gave me the strength to look forward with trust and faith. They encouraged me to rebuild my dreams. The environment at Pious tailored me in every way to face challenges in my path.

The principal has shown us that learning is an everyday process, it will only make us better every time we learn something new. The faculty motivated me at every step and supported me to rise higher. Although the academic and extracurricular activities were tedious, they still assist us in sharpening our skills to face challenges in the competitive world.

I feel it as a special privilege, an opportunity that only very few will get to join the family of pious as a faculty or a student and be a part of its vision and mission. The time that I spent in Pious taught me to be dedicated, unwavering, focused & adaptable.

*"I will always
be a proud
Piousian...!"*

(2010-2012)

I would like to express my tremendous gratitude to Principal Sr. Velangini and the staff of my college for their heroic efforts, incredible care and commitment towards us, for guiding, inspiring and making us what we are today.

Thanks to my lecturers for supporting and enlightening with the highest quality of education over a period of two years. A great teacher is the precious gift of student's life and I'm lucky to be blessed by that one. The two years journey pursuing my master degree course is truly irreplaceable and I wouldn't trade them for anything.

The college stands true to its motto "Truth, Light and Life" for guiding students towards right path in life. Thank you St. Pious for making me punctual, feel positive, practical and optimistic towards life.

St. Pious – A precious place to be.....

VEMURI ANNAPURNA (2017-2019)
MSc MICROBIOLOGY

Through my St Pious college experience and my reflection on The Scholarship of Teaching and Learning Reconsidered, I have come to recognize several ideas that have greatly impacted my views on learning, and my actual learning.

This college has been nothing less than what I hoped for. Supportive faculty and seniors, beautiful campus, quality education, real world experiences and amazing friends.

It is everything one needs from a college and a Network developed for life. The growth I have seen in myself is 'invaluable'. The college provides every student exactly what they need for life.

I am thankful to all the faculty members of the College for their continuous efforts and support. Apart from excellent academic experience, I also gained the benefits of being a part of Cultural Student' body. I cherish every moment spent at St.Pious. My graduation at St.Pious has been a very interesting and awesome journey.

"I have come to recognize several ideas that have greatly impacted my views on learning, and my actual learning..."

B. SUSHMA (2016-2019)
BSCS BIOCHEMISTRY

Hi!! I m Stella Sabatina. K an alumini of this prestigious college St.pious.
Currently working as a teacher at St. Joseph's School, Malakpet. I was truly honored and blessed to be a part of this institution for 5 years my graduation as well as my post graduation.

This remarkable journey in my college has given me so many memories and taught me several things that I would proudly say were inculcated by my faculty. who always lend a helping hand nurturing the students by providing guidance and support not only academically but also encouraging us to take Part in Co- curricular activities

My heartfelt gratitude to our principal Dr.sis Niramala and the entire fraternity of St.pious for the constant encouragement we have received.

This place has not not only made me explore the world outside but also made me understand and accept the challenges to become an independent woman .

STELLA SABATINA (2012-2014)
MSc BIOCHEMISTRY

I really have to be thankful to all the lecturers for assisting us and facilitating the needs of the students from time to time with regular lab sessions and practical sessions.

This college has by far the most healthy environment that empowers and envisages the individual needs of the students..

Proud to be a Piousian.

Through my St Pious college experience and my reflection on The Scholarship of Teaching and Learning Reconsidered, I have come to recognize several ideas that have greatly impacted me, my views on learning, and my actual learning.

As I sit here now in the penultimate year of my masters, I find it hard to believe all of the things I have accomplished in degree, not just academically – but personally too. Degree has made me a much more resilient person, I truly believe anything is possible if you have the heart to pursue your ambitions. We must rather use it as a platform to be the best possible version of ourselves that we can be, and I am glad I chose St. Pious to help me with that.

I have gained excellent communication and interpersonal skills that have enabled me to engage with others without the awkwardness of not knowing them. I have learned that I am a tenacious character who wants to attain the best possible results both academically and personally. I have also learned to think critically and look at other

answers or solutions before finally arriving at my own conclusion, which I think university prepares you for. I will take all of these acquired skills and move forward in my chosen career

Some teachers remain in your memory as a key to a few life problems. A teacher imparts not only academic knowledge but also shares ethical values, and imbibes morality that shapes our personality as a better human being which and where I experienced that in St. Pious college. I thank each and very member who played an important role in my degree for making it so memorable

SULTAN HARIPRIYA REDDY (2016-2019)
BScs BIOCHEMISTRY

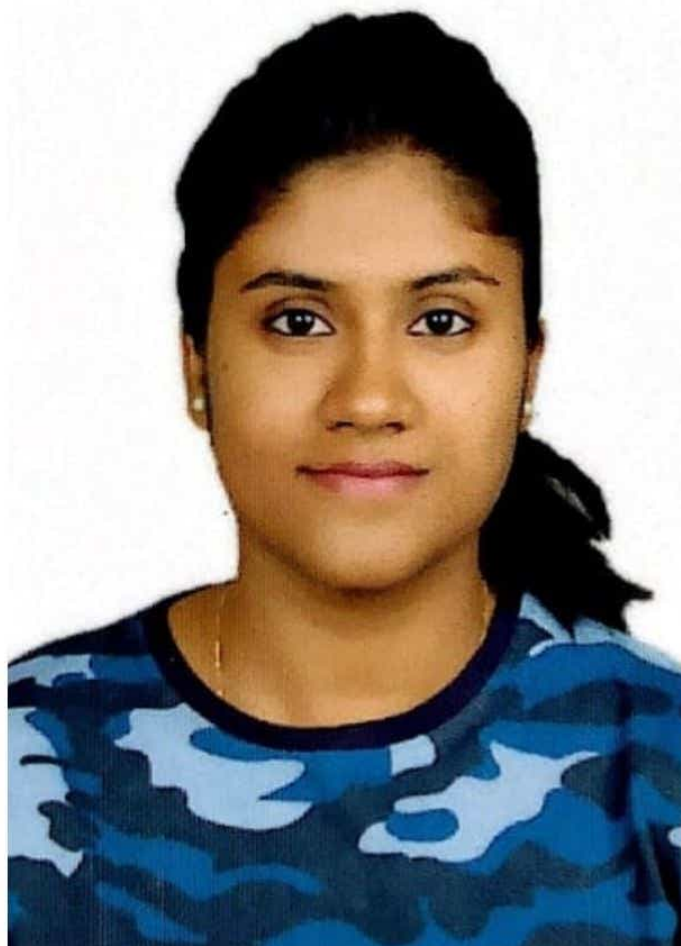

Looking back in the time I feel like St. Pious has come across like a stage in my life where I performed and shone in what I did. Not only the college gave me number of opportunities to grow but also gave me utmost confidence and needed push to achieve my dreams.

This college has done so many good things in terms of encouraging students to strive for a better life, making them confident, strong independent women who can lead the society forward. St. Pious has the most comfortable environment where we are exposed to different kinds of cultural, spiritual and sporting activities which helped us shaping our personality and character as a whole.

I thank the Principal Sr Velangini, my lecturers who are so proficient at what they do and the staff for providing us a zealous environment where my ambitious self-thrived. St. Pious is a safe haven for all young, Aspiring women to build a great future for themselves.

*"St. Pious has

(2018-2020)
MSc MICROBIOLOGY

Entering the Pious campus as a new lady from a co-education environment throughout my life was definitely a culture shock that lasted a month to truly comprehend. Unusually entering the college where there is an ample amount of space in classes, corridors, washrooms and filled with staff that gives so much consideration to the students was very new to me. It was so refreshing to see juniors and seniors having a great sense of comoratorie that I have never been exposed to.

The lecturers always took care of our needs ,on & off class hours, which was really sweet on their part. St. Pious does have its ups & downs at certain point of time but the building and the people in it somehow grow on you gradually that emerges you from the gates as a new person. Studying at Pious for almost three years taught me more patience, dedication, the value of respect and to procrastinate less.

The St. Pious campus and her folks indirectly sealed my final ambitions, making them clearer than ever and I've regained appreciation for many things because of the time spent here.

"It was so refreshing to see juniors and seniors having a great sense of comoratorie that I have never been exposed to..."

ANUSHKA ARVIND
(2017-2020)
BSc BCME

I would like to express my heartfelt gratitude to St. Pious X Degree PG College, Principal Sr. Nirmala and the faculty for providing me the opportunity to complete my graduation at this reputed institution.

The Principal, Staff and Students have been an embodiment of strength and inspiration throughout my stay in St. Pious X College.

I have to express my thanks to the college and to the Librarian Staff, Ms. Sunitha, Ms. Vasantha and Ms. Satyaprabha for serving as scribe in all my examinations and for providing additional Library facilities. Thank you St. Pious. I am blessed to have been a part of you.

PREETHI SUDHA

College life is a perfect blend of joy and hardships. I believe that it is one of the most beautiful stages in life. My experience at Pious was momentous. It has taught me one fundamental thing that life is unpredictable so live the moment and grab every opportunity that comes to your door.

Past two years in this institution has really helped me grow as a person and learn some important life skills. All the valuable teachings and life lessons that my mentors imparted has been so enriching. All those moments of joy, fear and adventures that I experienced in this institution carry a lot of sentimental values.

This institution and my lecturers encouraged me every day to think beyond my abilities. I am so grateful to be a part of this organization. Things change but memories last forever. I take the opportunity to thank all my lectures who were our guiding stars.

MSc BIOCHEMISTRY

G.Bhavani and G.Bhargavi from B.COM(Cs)2015-2018

We are really feeling proud on saying that we have completed our graduation from ST. PIOUS X DEGREE & PG COLLEGE FOR WOMEN. As we enter the college it gives us a pleasant and peaceful atmosphere. Pious made us stronger and took us a step head for being an independent woman. The faculty members make sure every class is fun, interactive and knowledgeable for students at ST.

PIOUS. We had enriched through field trips, workshops, seminars, sports, projects, certificate course, career guidance etc. We were a part of extension activity it was "PIOUS LAB TO LOCAL NETWORK" organised by the Department of Computer Science and the other activities of PEARL club by Department of Commerce where it shows the social responsibility of our PIOUSANS towards the society. Every Saturday we use to have our value education class where the lecturers discuss the topics related to conflicts and the challenges to be faced by the youth which were very helpful for every student to cherish their life with positive attitude. St. Pious gives new and better way to explore our talent. PROUD TO BE PIOUSAN.

I, Thank St.Pious for each and everything which it has given to me. It has been an amazing(21years) journey in Piousian Family from KG to UG. I'm blessed to be part of our Piousian Family. No one recognised me but Our College did that to me. I still remember when I entered Our college, I got the feeling that I'll grow and that's what happened. From being a girl with no confidence to becoming A Woman with Confidence. Our college made me realised what I want to aspire to be. It's has given me great support, The Principal and the lecturers were so encouraging in studies as well as extracurricular activities. I found Great friends, The staff people are so good. It taught me that every work is important.

It has given me Great opportunities, platforms and lessons. I became a seeker. I want to give back everything, which I got from our college one day. I cherish our college every single day. I say proudly about our college wherever I go. "Students are the brand ambassador of the college". My Best 3years of my life. Make the best use of your college days because it will become one day as a beautiful memory. When I look back, I thank our college for giving me this version of myself. "Once a Piousian, Always a Piousian".

St Pious..... A name that fills me with a sense of
Pride every time I hear it.

The best Experiences I have had, were in those
three years, which is why I have always said, it is
my second home.

There were tears of joy, happiness, friendship,
family, anxiety, pride, gratefulness, trust and
love. Three years with St Pious went by without
a hiccup by moulding us to what we are now.

College is a dry run of the rest of our lives. It's a
training ground on how to be successful and
become good people. I believe College and
education in general, is the foundation on which
we build our career and lives.

We learn most of our values from our Parents.
Our educational system however, serves us in
being the backbone of the future we will live
out.

Thank you St Pious for helping me realise my
dreams, aims and ambitions ... For believing in
me and making me who I am today.

There isn't a child who hasn't gone out into the brave new world who eventually doesn't return to the old homestead carrying a bundle of dirty clothes. ~Art Buchwald

These words said by Art Buchwald hold true about my association with St.Pious.It was like a sanctuary that prepared me to face the world that transformed me from a shy girl to a confident woman.

The Vision of St. Pious, “Shaping the Youth with Scientific Aptitude and Social Consciousness” truly describes the making of a good citizen and human being which has been instilled in us.

College life is said to be the most knowledgeable phase in the life of an individual, where one learns a lot about life as well is the foundation stone for a successful career. The college has given me friends I will cherish for a lifetime. The relationships formed between friends, students, teaching and non-teaching staff are bonds that get strengthened with time.

The lecturers were always there to guide us in every step and help us whenever we needed them. The Principal Dr.Sr.Nirmala and vice -principal Sr.Manikyam ,were both like a mother is to a child, for the whole college, under their guidance everything used to go on smoothly.

Today as I am miles away in Cambridge, I attribute my strength, independence and resilience that I got as part of my formal and informal teaching there. I am proud to say that St. Pious college not only provided quality education, but instilled in us the values of Truth, Light and Life, which I hold inside me even today. My Life at St.Pious college, is one of the best chapters so far in the book of life, which I like to revisit and cherish the memories of.

As the quote by John C. Calhoun goes “In looking back, I see nothing to regret and little to correct” Thus I thank St.Pious X Degree College for making me the courageous, strong and confident woman I am today.

Education is not about having a degree, it's rather the civilized and kind person you become over the years. Rightly said by Malala Yousafzai '1pen, 1 book and 1 teacher can change the world', I couldn't change the world but my teachers helped me change my perspective on how I see the world and that's how I changed my world. Red Bull didn't give me wings but this institution gave me the space to spread the wings that I had, it gave me that gentle push I required to fly high in the sky of success. My tutors have molded me in a way that no failure could defeat my motivation. It was never the subjects that helped me in my life, rather it was the lessons my beloved teachers taught me in the process which helped me strive and grow through the years. It was never a Grade A that made me happy, what made me happier was when I realized that I could tackle my own problems independently in life where I was proud of my decisions and my achievements. It was the courage that I have built in an atmosphere which was less challenging and more motivating. And St. Pious has proved to be that perfect atmosphere for me where I could spread my wings wide enough to fly high.

College life is one of the most memorable experience of one's life. It is a mixture of happiness, enjoyment, hard work and struggle. A respectable college education gives people the advantage to lead themselves in any direction they want to proceed in life. College is a time that students can truly become individuals. At college one learns the sense of duty and responsibility and also the lesson of self-importance and self-confidence. The most important lesson one must learn at college is to not misuse the liberty. Someone once said, "Shoot for the moon, and if you miss, you will land among the stars." A college education is an aspiration that I feel will promise exuberance.. Earning a college degree is all about opening up opportunities in life. It prepares you, both intellectually and socially, for your career and your adult life.. Aside from training you in an expert field, college trains you to think analytically, understand complex subjects and communicate your own critical ideas about them. It also instills crucial skills like organization, self-discipline and the ability to complete tasks from start to finish. In other words, college helps to mold you into a more professional individual.. Time management and organization, for example, are just two examples of the skills that you're likely to pick up during your time in college. Both are needed to successfully navigate the many courses you'll be taken while also successfully tackling the tasks before you.... I have applied all the factors mentioned above in my life, and I stand successful

Can three years change your life?

It was in 2015 after my graduation, I was very curious to get an admission in a coed college but unfortunately, I had to join in St. Pious X Degree & PG college for Women. Gradually as days passed, I realized my admittance to St. Pious college was my golden ticket to a college nicknamed “Paradise”.

Wondering why?

Being a small-town girl, it was difficult for me to cope with the world. But my access to all the resources, human and physical that a great and prestigious college has to offer helped me built a network of peers and mentors who helped me get where I’m today.

Being a college hosteller, those experiences shaped my life the most centered around getting to know people form diverse backgrounds and learning to solve problems independently.

One conversation with my principal, Sister. Velangini always sticks with me. I was a middling student. Because of some mischief I had done, she grabbed me after the class and we talked for may be five minutes. I don’t remember exactly what she said but it was something like “You Have to Stand First!”. It had something to do with my potential, with something she saw in me that I didn’t see. I walked out of her office and thought of myself in a different way. Suddenly there was an intellectual curiosity, almost a kind of muse that I’m still following. I wonder if she ever knows?

I began to question everything and to embrace learning as a means to a fulfilling life. And I also had great lecturers like Mrs. Naga Laxmi, Pavitra, Sangeetha, Preethi, Sowmya and Pushpa were astonishing me daily.

I have learned how big the world actually is and realized for the first time how much a part of that world I was. My mind grew, opened up. My heart changed. I became essentially and fundamentally who I’m today.

I was no longer a small-town girl, but rather a young adult and a Piousian itching to contribute something meaningful.

My life in St. Pious was like an amazing treat, like being taken on an exotic vacation. I wish I could do it again, but as an adult.

This is college to me: Not so much where you go, but whom you meet once you get there and how does it impact life.

LAXMI PRIYA

Batch: 2015-18

B.Com Computers

**Associate 2 at State
Street Corporation**

Take the moment make it the best, this is what I've learned and that is how I lived in St. Pious X college for 3 years. I entered the college with a lot of confusion, yet I was happy to find almost all my friends in this college and I wondered why? In the first year, I had no idea about what was going on but I understood that I've got the best faculty to teach B.COM students. I also found out that the commerce department was recognized to be the best department. From my second year, I started taking part in competitions and it feels great to be an active participant which helped me in my all-around development.

In my third year I started rediscovering myself. I got to know my ability. I stood as the class representative, this was the greatest experience I've ever had. And working with my friends who were co-representatives helped us to develop as a team. Being the placement coordinator is another duty I took up with all my interest and that is where I've learned to be patient, cooperating and to plan before functioning. There is always so much to learn, one can never be overlearned. Pious has given us that opportunity to be a learner every day.

I am glad to be a part St. Pious family, for the way I have developed into the new confident person that I am now. It is indeed a blessing as the college has allowed me to take part in everyday prayer sessions. I can say that my friends and I grew up together as women helping one another.

Every moment I spent in this college is the best and I still cherish all of them. My suggestion or friendly advice to the upcoming students is to fully enjoy and live the time you have in this college because you'll never get them back. Make sure to grab the opportunities, create memories, live them up, and cherish them forever.

I would love to thank all my lecturers, the principal and the college management for so beautifully handling many students like me and fulfilling the vision and mission of the college.

pursuing CA

As I pen down memories of my Alma Martyr, my smile just gets bigger, I'm nostalgic and thankful. St. Pious was my second home, I've spent 8hrs everyday for 3yrs in the peak of my teens, met the best of faculty, whose genuine interest in our development was evident through their lectures, willingness to explore, openness to learn even from students, instilling curiosity and insights ,emotional support and a warm welcome to their alumni. I owe my role today to the opportunities I leveraged on during my first and second year of graduation where I was selected to be the sports captain, the class monitor and encouraged to participate in cultural events and paper presentations. These were the moments that helped me craft my career, if it weren't for these opportunities I wouldn't have realised my comfort and passion in interacting with people, delivering presentations, researching and learning , educating and enlightening and interacting with varied social styles. This was the start of my inclination towards "Human Resource" and me positioning myself in "Learning and Development". The emphasis on preparing students to be agile, deal with ambiguity, build an ecosystem of dependency and collaboration have always stood me in good stead in the Corporate world.

I cherish moments spent with my friends who have been my pillar of strength, taught me, encouraged me and always had my back. I felt so welcomed when I met with our principal for a proposal on supporting the introduction of SAP in college, she was warm, open , encouraging and willing to adapt to changes in the education system for the development of her students. I'm grateful to St. Pious for giving me an environment to experience excitement, happiness, anxiety, healthy competition, learn , share and deal with challenges that life had to unfold.

A life lesson that I have learnt from my alma martyr is that not everything comes served on a platter, you have to stay curious to stay ahead.

Natasha Rithin Thomas

At the very outset I would like to express my heartiest thanks to the St.Pious Family. I extend my warm regards to the Commerce dept. and MBA Dept , which has immensely helped me Succeed.

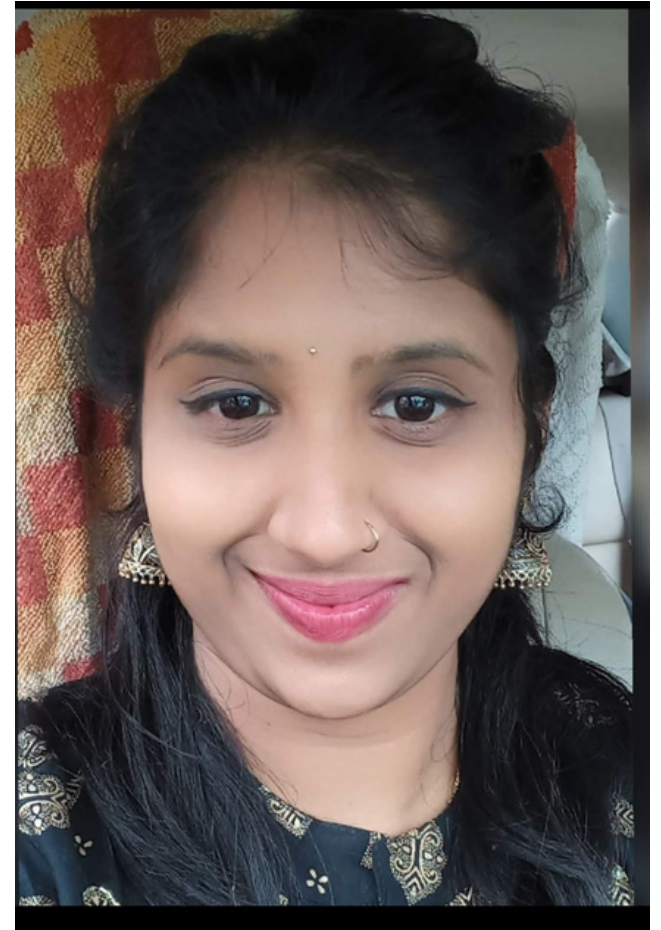

I am highly indebted to the St.Pious Family for helping me and guiding me achieve to great heights through entire 5 years of my graduation and Post graduation.

As the result of the constant support which I get I have been represented as JRF for BRICS Indian Council Forum- New Delhi- One of my greatest achievement so far.

This Institution helped me and supported me to explore my passion towards dance , Where we were able to get laurels upon the universities and also given the chance to teach the students as a part of co-curricular activities .

Finding the right path to success at the right time is really very important and for that way I selected St.Pious . The Friendly Environment , the Systematic approach towards imparting education at St.Pious made me a Competent Individual. The Support I got for both curricular and co-curricular at the college has made me more confidence to drive towards my future.

Faculties of both Commerce and MBA dept. has Supported me in both personal and professional aspects . they shaped me into a better responsible person where in now I am Evolved into a confident Lady, Bolstered with new Skills.

**Ninitha
Vishweshwar
MBA
2012-2014**

Teachers open the door, but you must enter by yourself so yes, I've found the teachers who always keep the doors open for their students and welcome them with a warm smile in the prestigious college. 3 years of my life in St. Pious x degree college has made me experience life to the fullest and there was so much to take away. 27 years of successful running with more than 1200 students per academic year has been a record of this college and I am grateful to be a part of this institution. I have finished my intermediate at St. Pious Jr. College, Ramnagar. So I was comfortable to join another at. Pious again. The environment here is always so peaceful and growing. The college is handled by the sisters who know and spread God's love in everything they do.

In the beginning, I thought the college would be strict and there will be so many rules but once I decided to abide by them with all my heart I started to love them and that is how I made so many memories.

We have a number of opportunities to develop as a student and also as an individual. Being in the B.COM stream I always looked at my lecturers as an inspiration to become like them someday. Pious allowed me to join the PEARL committee in which the students have to go and teach the primary school students. I still remember waiting for Fridays all the week just to go and teach. And that is where the seed was sown. Now I am working on my ambition and I can gladly say that St. Pious college and my lecturers laid the foundation for this.

Every opportunity I grabbed helped me to overcome my fears. I've learned to be a team player and also to be a leader.

My day in college would start with prayer. And that I think is what kept me going. I believe that these prayer sessions have touched the hearts of many like they touched mine. The college chapel is my most favorite place which helped me to discover peace.

Be it placements, internships, co-curricular activities, or inter-collegiate be it anything Pious is No.1 and it will always be. We entered as little girls and left the college as strong individual women.

Not to forget everyone will discover the best seniors and Juniors who will be the strongest support system to whom I can look up. I'm grateful for every moment I spent in this college and to everyone I've found here. My love for St. Pious will always remain.

My name is Regina Hanisha Raj, a graduate in Commerce from St Pious X Degree and PG College for Women. I come from a middle class family, where parents work hard to help their children study to be in a better place. My option was never St Pious to study my degree, but just because my elder sister studied here, I was opted to complete my graduation at St Pious. Never mind I regretted joining college, but as the days passed by I was so happy around the campus with supporting Lecturers and amazing friends. I found best of everything in the college and when I graduated I felt lucky enough to be studying in this prestigious college. Every Single day at college helped me to grow into a better person and make my parents proud. I was placed in Hinduja Global Solutions through Campus placements, I am still continuing and excelling in my current position. Projects and presentation sessions at college helped me to take up Process Training Sessions at my work place. I can proudly say that where ever I am at present is just because of the college given opportunity, I am happy to be called as a Proud Piousian.

I am forever grateful to my friends, professors, and administrators at St. Pious who helped me gain the fundamentals skills to be successful in my life. Faculty at St Pious Degree College immensely supported me to earn a commerce degree which created opportunities to choose from a variety of career paths. Various co-curricular activities at college, helped in overall development of my personality and boost my confidence.

On my journey, I made many great friends at college who were always supporting and encouraging me to push myself which allowed me to grow and become a better student. From my versatile experiences at St. Pious, I have come to appreciate learning, and face challenges, and come up with solutions for bigger obstacles in both my personal and professional life.

I Ganga Sandhya Rani, an Ex- B. Com (CS) student of St. Pious X Degree and PG College for women. I am bound to have a lot of memories of college life.

This journey of mine has played and also is playing a very pivotal role both in my Career and personal life.

The academic help or assistance received from the college during my 3 years of study helped me to prepare for life after college, as it provides a unique and wide-ranging of learning experience. And this experience has prepared me for my future career by giving me a competitive edge. Not only this College prepares you to be knowledgeable in many areas of academics, it also creates you to be an all - rounded student by mentally preparing you for the workforce.

It is to be noted that St. Pious X Degree and PG College for women has a dedication towards creating students not just as graduates that are only knowledgeable about their major, but about a wide variety of topics. My experience at St. Pious X Degree and PG College for women has helped me throughout my Career (Worked as Jr. Asst at HMWSSB and now working as Junior Accounts Officer at Southern Power Distribution Company of Telangana LTD).

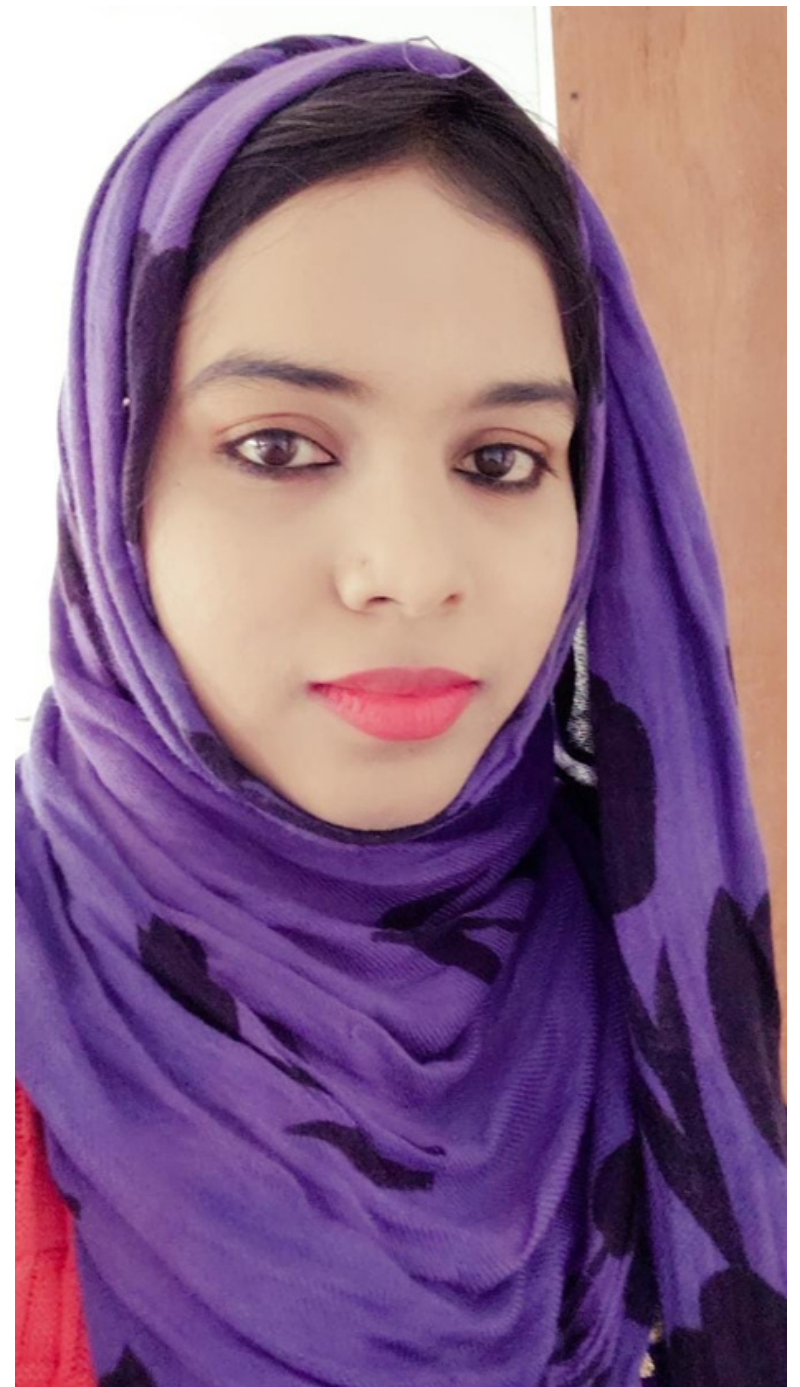

In this competitive world where bagging one good job is very difficult, the knowledge and guidance received from the College and its faculty has helped me a lot. Not just in the career front but also through-out my personal life, the moral values that the college has taught us, has helped me develop into a better human being who is more confident to face the hardships of life.

**Ganga Sandhya Rani,
2013-2016
Junior Accounts Officer at

The value of a college education is not the learning of many facts but the training of the mind to think....

My admittance into St.Pious X degree and PG College for women opened doors I never even knew existed. When I graduated in 2011 I was no longer an introvert rather a young adult itching to contribute something meaningful. My college education impacted my life greatly by providing me with the opportunity to excel in today's society. My mentors at Saint Pious transformed my filmsy desire to become a lecturer into a fiery passion because of which I am currently engaged in working for the upliftment of the marginalized sections of the society being placed as a degree lecturer at Telangana Tribal welfare residential degree college for women which aims at the upliftment of the tribes by imparting quality education to them. Today I am what I am because of my mentors belief in me and their constant motivation. It has been my observation that the only way can achieve life worthy of acknowledgment is by receiving a quality education which my college has given. My experiences in college has given me a chance to sharpen my skills in my field of choice. My time with my mentors and college has enriched my life in many ways. It has provided me with the necessary tools to enhance my skills more, taught me valuable knowledge about the diverse world and people and enabled me to become a successful person in life. When I look back at the years I spent in college I believe they were the most important years of my life as I came out of St.Pious College as a bright and eager graduate ready to take charge of my life and pursue all my dreams with a clear focus. My college has given me the necessary tools to be a happy human being and contribute to society and the world at large.

Seema Jabeen

2009-2011

Education is what remains after one has forgotten what one has learned is school.- Albert Einstein.

My college education has impacted my life by providing me with opportunities that led to experiences that enabled me to excel in society. I was fortunate to attend St. Pious X Degree and PG College for Women, which was reputable both academically and culturally.

My tenure from 2008 to 2011 resulted in a Bachelor of Commerce (Honours) qualification and attaining the all-rounder award in 2011. I was involved in several extra-curricular activities that required travel throughout India as a representative of the college. The copious amounts of knowledge and exposure that I gained far outweighed the classes that I unfortunately had to miss. The incredible faculty members of the college ensured that those lessons were not lost by assisting me to complete the syllabus upon returning from the various events.

As I look back over the past ten years, I am so grateful that I graduated from a prestigious institution that instilled values which I have carried with me throughout my career, in multiple jobs and countries.

The achievements of my goals and dreams thus far can be attributed to the once-in-a-lifetime opportunities, experiences, and accomplishments during my college days. As the president of the student council (2010-11), I had the unique privilege of organizing multiple events and also had the privilege of representing the college as the national convenor of AICUF.

I currently work in a risk and compliance role for an engineering company in Melbourne, Australia, and I owe it all to my parents, the principal (Sr. Nirmala) and all the faculty members who have helped me become the person I am today.

**Shireen Ann Andrady
,2008-2011**

'College life' is that phase in one's life when one learns the most important lessons of life.'

During my college days I had the best interaction with different people from different places which helped me develop a spirit of unity, brotherhood, and friendship. The best part of being a student of St. Pious X Degree PG College for women is that the lectures we had. Lecturers had excellent knowledge on the subject they thought they made sure that they give their best by explaining very clearly where one could understand better. They were friendly and guided about the career we chose and opted for.

I can say my college life at St. Pious X Degree PG College for women is a beautiful blend of joys and memories. On the whole, every day spent in college is loaded with some colourful events such as freedom, special breaks, events and feasts. No doubt college life is an ideal part of academic life. Its charms can never fade away

I am Sruthi Akshathala from B.Com computers passed out batch of 2018. My sincere appreciation and gratitude to the Training and Placement Department and all the staff of St.Pious X degree college for their efforts in imparting quality technical and aptitude training.

I cannot begin to describe how important it was for me to be able to seek advice from our lecturers throughout the three year journey. College is one of the best places to learn and develop in all the aspects. Today I am here in a position to able to help others in giving or sharing the knowledge is all because of the college and the Lecturers. Overall I am very grateful to be able to go to a college of choice, and attain a quality education to better myself.

Sruthi Akshathala

College life is that part of your life that you are going to relive in your memories till you breathe.

Memories always bring smile ,I cherish the time spent at ST.PIOUS as it has been my home from schooling to Graduation ,I feel privileged to be PIOUSIAN ,I still remember my first day it was 27th june 2016 as it was my birthday this day became even more special.

I have always been proud to be part of st pious the best college for women ,we have the best team of lectures,HODs ,the best infrastructure,it not just teaches us How to Survive in the society but to be an independent human being with passion,compassion,discipline and strong determination to overcome every struggle in life and win over it .

It made me a better person ,The best three years of my life everyday was new challenge ,new ways to discover ourselves and the abilities to make a better future for ourselves ,I found the best lectures who helped me every aspect of my journey added to which the best bunch of friends,seniors and mentors ,it is a divine place of learning and exploring our life's.

"The life at pious makes us believe in being good human beings " and a woman with goals and compassion will be independent and lead our life's

From starting our day with prayer ,singing songs of praise wishing each one to sitting together in the classroom attending classes and gaining knowledge to passing on the experience to giving every test and striving on to make ourselves even more better to running around the corridors to standing in the same corridors waiting for the placement selections and celebrating our happiness at our favorite place "CANTEEN" to dancing ,signing ,painting arranging stalls for the college fest to lending our hands in serving NSS was the best part where I learnt every bit makes a change and how happy i was doing and how privileged we are and how we can help the society.to participating in competition and winning To learning and the last goodbye farewell was really hard to day but also a start to our new beginning made me realise the life has just started .these memories are close to my heart .

FOREVER GREATFUL ,
PIOUSIAN

“We do not remember days, we remember moments.” -Cesare Pavese.

The stay at St. Pious has a bunch of them. I still remember the first day of college, it was the 7th of July, 17 years ago in 2004, all the First years gathered in the Auditorium, waiting for the official welcome by the Headmistress into lives of being a Graduate. Some laughter, non-stop chatters, excitement of students reuniting in the same college after having been together during school or Class 12th, an exuberant atmosphere overall. I, being the Introvert that I am was taking it all in, I did not know anyone there and was waiting for stepping into the next phase of life. Then it happened, the official welcome address, few points that I still very distinctly remember is the focus on St Pious X being a College for Women, because the college believed in empowerment of Women and understanding on how Truth, Light, Life- our college motto are the underlying principles of anyone's being, this moment on, the impact this place has left in my life has only been very profoundly prominent.

For the longest time until St Pious, I was a content, coy, extremely shy, 'good student', with reasonably decent grades but very limited self-awareness. It took the Lecturers at this place to help me realize my potential. A random nudge to participate in an intra college paper presentation set path for many more such participations and considerable wins over the three years. For someone who only was a silent spectator until then was now one of the first choices for intra and inter-collegiate Debate, Literary, Essay writing and Paper Presentation competition, and the wins were just the bonus. For someone who had never got on to a Stage until then, was a unanimous choice for being elected as the President of the Student council, an achievement that still stands out as the best in my journey of life.

The series of Guest Lectures, Certificate courses, Seminars, exposure via participation in inter-collegiate competitions, mock interviews, Campus placement opportunities, all helped me sail through my Post Graduate studies and Professional life with enough confidence and ease. This place truly will always remain close to my heart for having helped me grow wings and how can I not be thankful to this place for the great friendships that began here. The moments spent here will always be cherished.

From an eternally grateful Alumnus

I am sure most of us remember the story of the
little boy
who in order to help the butterfly come easily out
of the cocoon broke its shell, but what he failed to
understand was that, the butterfly needed to go
through the process of struggling against the
cocoon to
gain strength and fill its wings with blood. It was
the
struggle that made it stronger.

That was pretty much my college life. I could have
sugar-coated it and said "Oh it was a bed of roses"
"But no
it was a hard taskmaster who taught me the value
of discipline,
accountability and empathy.

I so love the college that I came back to work in it .
Oh yes that means I was not only the student but
also its
Lecturer. Now looking back all I want to say is
thank you from the
bottom of my heart for all you have taught me.

A college for effective teaching and guidance in all aspects of student life with conducive atmosphere for learning, making its students to face the challenging world with ease. I believe, an individual to be successful in life needs development in five significant areas. They are: Physical, Mental, Career, Social and Spiritual Development. St. Pious has become successful in providing all-round development to its students which is also one of the reasons to achieve 'A+' grade from the NAAC Peer Team - 2018. Well, I always said and continue to say that St. Pious is the best part of my education. A college which is difficult to find elsewhere! Wherever I am and whatever I do, throughout my life I would like to carry and apply the values and morals taught by St. Pious.

I believe that college is a stepping stone..the only way you're going to get better at a profession is if you put time and effort..I gained a knowledge and trust on myself where I can grow in my future....While looking into different colleges I found unique in pious such as placements with top most companies,modern labs, auditoriums, play ground,dance floors and gardens...Whole staff were kind and helpful to each and every individual.. we are always proud to say we are from piousions..Thank you

Akhila
2013-16

From 2012 to 2015 has been a great memorable year in my life. I have experienced great happiness in my life which was filled with myriad emotions.

I also learned to balance my emotions, understand responsibilities and also balance my curricular and co-curricular activities with the most support of all the teachers who encouraged and shaped me into a perfect person

I am very much thankful to the teachers and the college for being one of the key reasons for my success. Working as a police constable, At CAR headquarters petlaburj
Proud to be piousian

Every phase of life is important for an individual's growth. What we learn from each phase further shapes our lives. College has been one such remarkable phase of my life.

Being a part of St.Pious I was given opportunities to learn grow and explore. Being a student, studies are comparatively less exciting, but thanks to our faculty for making every class interesting and encouraging. Hence choosing one favourite subject or lecture is a bit challenging task for me.

Time spent/lost once can never get back. Make the most of it is the only key to not be left unsatisfied. And undoubtedly I have achieve most of it.

I can't thank enough to all my lectures specially Computers and Physics Dept, for always being supportive in every situation and bringing up the best in me. Partially I owe this college for moulding me to whatever I am.

Deeksha

BSc

2013-16

Life as an Piousian is unique in its own way.

A perfectly balanced education with extra curricular to achieve over all development of students .It gave me an exposure to lot of new things especially in the field of Rural management via NSS especially working towards development of girl child and education in rural of Telengana. I've have received great support from faculties especially Dept of commerce and computer science.Received a lot of help and support to enhance my skill and opportunity to showcase them and help other thorough the skills learnt!

Today I am proud out all my achievements till date as an social work student and entrepreneur

St.Pious has showed me path for my future and what I wanted to become .

Proud to be associated with st pious -three years of college has changed my life !

The Golden period of my life

When I joined St. Pious X degree & PG college, little did I imagine how awesome the journey would turn out to be. The super strong support and care by the highly talented and qualified, yet humble, approachable, down-to-earth and friendly lecturers have helped shape me into the person I am today - Strong and Confident to be able to face the challenges in life both professionally and personally. Our college not only emphasised on academics but also on social and extracurricular activities by conducting regular college events and annual fest. This allowed us to socialize with other faculty students, explore and showcase our talents and build our confidence.

Being able to enjoy life responsibly, staying true to myself and facing challenges confidently without being afraid of failure are some of the valuable lessons I've learnt here. I will forever be grateful for the great camaraderie with all my friends, classmates and the staff that created a nurturing college environment

Apart from excellent academic experience, I also gained the benefits of being a wonderful human being. I cherish every moment spent at St. Pious X College. Besides shaping the character of a student, the college helps us to face the world with bravery and courage. My graduation at St. Pious X College has been a very interesting and awesome journey. I still remember my college days that venture out into the land of dreams and happiness. My college friends are the most beloved friends that I have in my life and they're the reason College was amazing! Things end but memories last forever. College life is the most memorable and best part of life. No matter where I am, I always miss our College campus, lovable canteen, numerous bunks, so many hands-on one lunch box, lifetime friends and always wish if I could bring those days back.

Whenever it comes to remembering our college days, the happiness which I feel after remembering them is really very beautiful.

“Having fun with friends, and sometimes having fun with teachers too ha...ha...ha.. and many more..

These are some memories that I always remember and whenever I remember these, our heart fills with joy. And a big smile comes on my face.

But waitwait....So, these are some memories which makes our heart happy after remembering them.

But apart from all of this there are also some incidents after remembering them, we get motivation, positive energy and an inspiration to achieve something good.

The friendly environment, the systematic approach towards imparting education at St. Pious made me a competent individual. The wide range of activities- both curricular and co-curricular- along and the support from St. pious X is really very helpful for my future. The faculties are really very kind and approachable when any need arises. The relation between faculty and student is very cordial, which gave me an opportunity to excel further. The three years spent here was splendid and has helped me excel professionally as well as personally. Apart from academic, department offers various opportunities to enjoy our college days which was attracting us towards college many of the time. It gave me a platform to push myself and to understand the potentials that was hidden inside me. Each of the Faculty members helped me with my ups and downs and shaped me into a better, responsible and successful person. Since my admittance, I have been evolved into a confident lady, bolstered with many new skills. Today, if I am in good position it's because of what I have learnt from St.

College life is one of the most remarkable and lovable times of an individual life.college life exposes us to new experience in his /her life. In college life one gets a chance to make their own decisions . Talking about my college life ,I had enjoyed my college life to the fullest and had some best college days of my life. I was the student of one most reputed college of Osmania University i.e St.pious x degree and pg college for women. I have completed my Msc (organic chemistry). Not only the academics I even learned many skills which can build my career so brighter ..iam so honoured to be part of st .pious family... And iam blessed to have wonderful lecturers who always supported me in hard situation....I take this opportunity to thank my college ...for giving me place in ur family..

My St. Pious journey was sweet and wonderful. Here at St. Pious I've received good balance of academics and extracurricular activities. It gave us the platform to prove ourselves by turning our dreams into reality. It taught me the toughest skills of life; discipline, friendship, sincerity, dedication, struggles, experiences, joy and commitment. I have lot of memories in this college to cherish. It was all because of constant support from our lectures and the management. They create a friendly environment for students. At college I've learnt the most important lesson of life; The spirit of unity, sense of duty and responsibility. Well , I'm very happy to be part of St. Pious.

My heartfelt gratitude to all my lecturers and management for their support and encouragement . I had an amazing experience.

For everything I'm today it's mostly because of my college.

It's where I learnt to explore myself and to believe in myself.

I was a shy and introvert girl.

But here, it was a total transformation for me.

Im a very expressive person but shy at the same time.

Friends and faculty at the place transformed me into a super confident extrovert woman.

It's where I started an NGO with group of my friends and it is active to the day.

Learning may be important but value based learning carves you into best form and it is what happens here.

Truth light and life....they become part of our lives.

Today I'm Director of Finance Box,

Bringing technology into finance.

We have brances in hyd, Bangalore, chennai and Bellari and more on the way

President of an NGO, OSFS

A Happy mother and wife.

And I proudly say there is contribution of my college in this happy n confident journey of mine.

**"A college degree is not a sign of a finished product but an indication a person is prepared for life." —
Reverend Edward A. Malloy, Monk's Reflections**

College was an amazing experience coupled with lots of learnings and memories (seminars, events, fests!). St.Pious helped shape my future and provided me with opportunities to hone my leadership skills. My faculty became my family and I feel lucky to this day that I had an opportunity to be taught by Rajashri Ma'am, Anita Ma'am, Monoshri Ma'am, Annie Ma'am and Malathi Ma'am. The values they inculcated with their teachings became the foundations of my career. Rev.Dr.Sr.Nirmala's trust and confidence in me always pushed me to move out of my comfort zone and constantly deliver results. I met such amazing people and made some amazing friends who are family now. Pious was a treasure trove of knowledge and to this day I am a proud Piousian.

Priya

St Pious is one of the most memorable phase of my life. In your early twenties the college and friends you choose makes a huge difference to your character and career. I am blessed to have both worked out for me. The faculty has been very supporting and understanding. Thanks to HOD Uma ma'am, Udaya Ma'am, Hepsiba Maam♥ for encouraganing us ane constant efforts to pave the right path. I had 2 options to consider while taking my degree admissions. I am happy that i choose Pious. These 3 years gave me mentors and friends for life. Proud to be a Piousian

-Glory

It was a great pleasure to be part of
st.pious family. such a safe,
professional and friendly learning
environment. high quality teaching,
assessment and management of
learning and achievements.
mechanisms for students to pursue
grievances and learn.

I bow my head for all the lectures
especially computers and physics
department for always supporting and
encouraging me both in academic as
well as in cultural activities.

This college gave us huge opportunities
to build confidence to stand up
ourselves and become successful after
graduating.

I would like to express my tremendous gratitude to Principal Sis. Velangini and the staff of my college for their heroic efforts, incredible care and commitment towards us, for guiding, inspiring and making us what we are today.

Thanks to my lecturers for supporting and enlightening with the highest quality of education over a period of two years.

A great teacher is the precious gift of student's life and I'm lucky to be blessed by that one.

The two years journey pursuing my master degree course is truly irreplaceable and I wouldn't trade them for anything.

The college stands true to its motto "Truth, Light and Life for guiding students towards right path in life.

Thank you St. Pious for making me punctual, feel positive, practical and optimistic towards life.

St. Pious – A precious place to be.....

St. Pious definitely holds a special place in my heart. It helped me evolve; gave me numerous opportunities to work on my assets. There is a place for everyone here. I was able to create a niche for myself.

The Faculty at Pious are great facilitators. They ensure that your voice is heard. Your contributions will be well acknowledged and appreciated. I was awarded the best out-going student. I was the president in my final year, Vice-President in second, and Class

Representative in all three years. These experiences shaped me as a person, and I can see its

influence to this day. I got better at my communication. I was an active member in the Theatrics, and I developed the art of persuasion. This place helped me to build my confidence as well. If you're willing to work on yourself with the right attitude, it will bring out the best in you.

I passed out of the college with distinction and then got into the English and Foreign Languages University, Hyderabad. I'm currently working as an English Trainer. I have students from different curriculums and ages, helping them acquire the English Language

Good Old Stories

St. Pious plays a significant role in transforming me from a silly girl to a confident woman. Those three years in college passed by immersing me with knowledge, patience, and, top of all, the management abilities (both organizational & emotional) necessary to compete in the real world. I am highly indebted to the entire St. Pious Family, particularly to my Mass Communication Department, for making me what I am today. I have attained real-time experience and exposure to various forms of writing for College Radio, writing for news articles, etc. Being a psychology student, all I have learnt is Introspection, which made me analyze myself and love & accept myself as a person. I will always remember my lecturers who made me love English Literature & motivated me to pursue my higher education in it. Those are the walls that made me discover a writer in me. Pious makes us get ready to survive and face the fast-paced world. Still, those good old days are the lights of my career and life. I owe to St. Pious. I can say that it's not just a place to study but a family to hold on to

A Proud Pioussian (The most naughty MPML Batch)

Likitha Alladapu
B.A MPML (2015-2018)

I would like to take an opportunity to thank my College i.e, St pious pg college for women , Nacharam , Hyderabad. College has taught me the importance of balancing my academics with social life . College is the place where we explore ourselves . I am so thankful for all my lectures for their unconditional love and support . They always encouraged me in choosing right career for my future , Presently I am working as a chemistry lecturer . I am so thankful to my lecturers for their guidance . Blessed to be student of St pious college . I am thankful to my college . Proud to be piousian

Navya kollu
MSc organic chemistry
2017-2019

Being called a Piousian was itself an honour
, even to this day it feels the same to be
called a Piousian. No other place I'm
Hyderabad could make me feel safe and at
home but St.Pious.

I remember discovering my potential and
converting all my flaws into my strengths.
Representing St.Pious at different Colleges,
winning the Competitions, and returning
back with those Trophies holding our heads
high was no less than a Lifetime
Achievement.

All the lecturers were very Strict for our
own good, but when there was an outsider
we face, in no time they would convert
themselves into a lioness protecting her
cubs.

All I want to say is St.Pious made me worth
it.

- Khetavat Kavita
BA -MPML
2017-2020

"St. Pious X Degree and P.G " When I first heard of this name , I didn't know what would be in store for me and without any excitement I joined casually. Slowly I started understanding that it was a college of discipline and punctuality. I thought of pursuing Microbiology in my under-graduation but I ended up joining the Biotechnology department. Sometimes unexpected things leads to beautiful outcomes.I still remember the day when I first entered the college with my parents , everything was so new and to meet strangers who became close friends in due course of time and to get to know them and to develop good friendships was a beautiful experience for lifetime. The lecturers always used to encourage, motivate and guide us in each step and to believe in yourselves that you are no ordinary human being and that you can achieve something. The college has a huge campus with parking area which I loved the most because everyday I used to park my scooty and go to the classes , I felt proud of that. How can one forget the rush in the canteens during lunch time and while exchanging for language classes and me and my friends used to rush through the crowd happily laughing and spending time in the canteens and near the trees. If I think of St.Pious X , a lot of memories would flash through my mind and which I cherish them forever and of course the cultural events which took place in the ground or in the auditorium, it would be the best time to enjoy with my buddies watching the program's or even attending for the placements and to crack them. The college trips were most fun and enjoyable of the all. In the first and second year's we went for one day tour in the city itself and it was so much amusing and pleasant. In the final year we went to Kerala along with our juniors which was very exciting and entertaining as it was a week's trip. Kerala trip always has a place in my heart because we got to live with the nature and to rediscover ourselves. My senior's and junior's were so helpful to me and I'm lucky to have such people. Taking up Biotechnology course inspired me to do Master's and to way more things ahead. Joining St.Pious X was a magnificent experience for me and for the many things which I learnt during my course of time.

K. Praajna Gayathri

2016-2019

B.SC (BTBC)

Life is short so make it count!!

I am very much pleased to share my experience
in St.pious X college...

Without a good and strong foundation the
future looks bleak....My graduation life begins
here in the campus....

I got enrolled in B.Com(computer science)
course in the year 2011 where i have numerous
memories with cherishing experiences that rise
me as a person and also of intellectual level...
The college campus, lecturers, approachable staff
and administation enhances the students to
path with positivity and deciding one...

As am one among them years ago...this made
me to achieve gold medal- topper of university
in my PG course and seen myself as JRF
Scholar-UGC...

I take immense pleasure to thank all my dear
lecturers and pillars of my career.....thank you..

Chandrahrika peddapanga

2011-2014

B.com(Computer science)

A college for effective teaching and guidance in all aspects of student life with conducive atmosphere for learning, making its students to face the challenging world with ease. I believe, an individual to be successful in life needs development in five significant areas.

They are: Physical, Mental, Career, Social and Spiritual Development. St. Pious has become successful in providing all-round development to its students which is also one of the reasons to achieve 'A+' grade from the NAAC Peer Team - 2018. Well, I always said and continue to say that St. Pious is the best part of my education. A college which is difficult to find elsewhere! Wherever I am and whatever I do, throughout my life I would like to carry and apply the values and morals taught by St. Pious.

Annu Vamshi Sai Priya

Through my St Pious college experience and my reflection on The Scholarship of Teaching and Learning Reconsidered, I have come to recognize several ideas that have greatly impacted me, my views on learning, and my actual learning. My overall experience in college has been beneficial because of the teachers who approached teaching with a more conscious effort and taught me to approach learning and my role as learner in the same way. Entering St Pious college, I assumed that my professor were teachers who would pour their vast knowledge and understanding into me, an eager and willing pupil. I entered with expectations of challenging, thought altering course work and stimulating lectures. I envisioned understanding things I could never grasp before. It was not that I was excited just by the idea of learning new information; I was excited also to be taught by experts . However, I had little understanding of the roles faculty members played in the university setting, how learning really occurred, or what teaching even was. I thought professors were foremost teachers without other professionals obligations, that teaching was the dissemination of knowledge, and that learning was a passive affair.

Laxmi Prasanna
B.sc-mbc(2015-2018)

Looking back in the time I feel like St. Pious has come across like a stage in my life where I performed and shone in what I did. Not only the college gave me number of opportunities to grow but also gave me utmost confidence and needed push to achieve my dreams. This college has done so many good things in terms of encouraging students to strive for a better life, making them confident, strong independent women who can lead the society forward. St. Pious has the most comfortable environment where we are exposed to different kinds of cultural, spiritual and sporting activities which helped us shaping our personality and character as a whole. I thank the Principal Sr Velangini, my lecturers who are so proficient at what they do and the staff for providing us a zealous environment where my ambitious self-thrived. St. Pious is a safe haven for all young, Aspiring women to build a great future for themselves.

G.R. Ksheeraja

Batch: 2018 – 2020

Specialization: Masters in Microbiology

I would like to take an opportunity to thank my college i.e st. Pious college. Being an st piousian i feel proud because i have learnt many things from college and faculty. Faculty were very supportive and encouraged us and when we couldnot trust ourselves.i thank all my lectures for their unconditional love and support.St pious is a great college and i enjoyed my time there.It taught me alot about life and future that iam living now. Its honored to get graduated from st pious college and recognised as an alumni.

Kumpati Nikitha
M.Sc Chemistry

First of all I feel proud for being a part of st. Pious family. Our college believes in quality education.

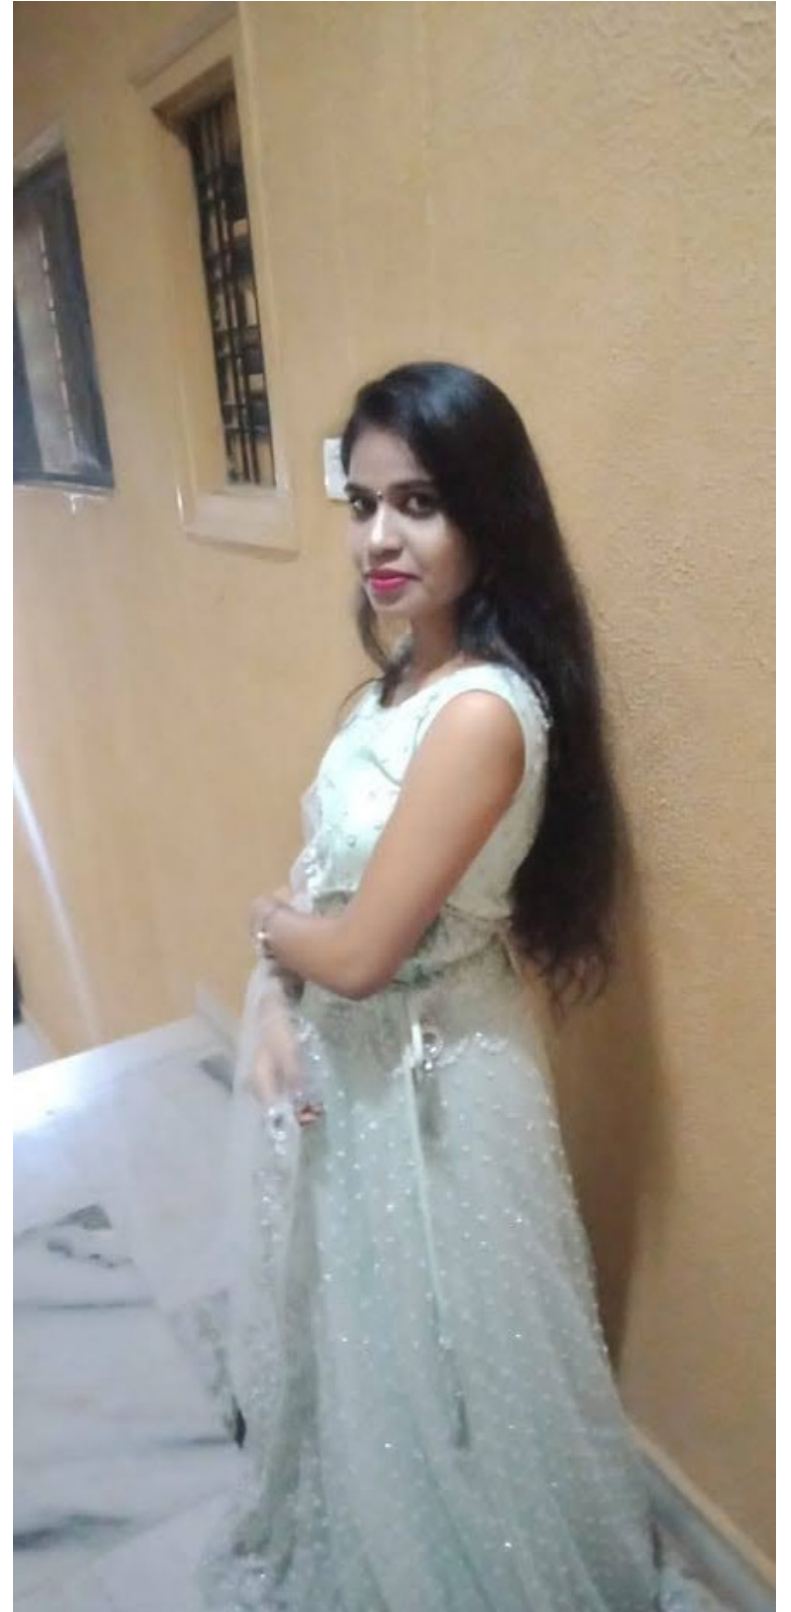

In my opinion our college not only focuses on education but provides a platform for students to enhance their inner abilities. It was a great experience studying here and the college gives everything for what we need.

Thanks a lot for making me what I'm.

Divya Sri bhat
B.Sc & M.Sc Chemistry

To dream the impossible dream,
To reach the unreachable star,
This is my quest to follow that star,
No matter how hopeless,
No matter how far....."I can just say that
this is what my beautiful college has taught
me and each and every wonderful teacher
of mine preached me. Am very proud and
honoured to be a child of such an Institute.
The zeal to achieve amazing heights in my
personal and professional life is what you
have been motivating me with, every
moment even today. My experience and
stay at St.Pious are always mystically
memorable. St. Pious is one of the miracles
that happened to me.....!! Waiting to make
you proud very soon.....Thank you St.
Pious. Love you forever....:)

Avanaganti Akshaya.
Bt.B.C

Finding the right path to success at the right time is really very important and for the way I had selected BSC (BtBC).The friendly environment ,the systematic approach towards imparting education at st.pious made a competent individual.

I still remember the day I got enrolled in this prestigious college .The wide range of the activities both curricular and co_curricular activities along with the support of all lecturers .Being in hostel with new buddies was like a new journey and hostel facilities we're good with daily study hours .How can I forget the days I spent in st.pious .

The ambience of the campus is very positive with good college facilities ,neat classrooms and library ,the whole experience is very good and there is always support and motivation from the management to pursue our dreams . It's a place of knowledge and bliss .I feel very special studying at st.pious .special thanks to all my lecturers and proud to be piousian.

N.srivani
BSC BTBC
(2016_ 2019)

I still remember the first day of my college in 2015 . I never had an idea that my college life would be so special and important to me .

Those three years are and will be the most memorable days of my life . "Every person you meet knows something that you don't, learn from them ," is something that I learnt in those three years . The timeless memories that we made is what I will cherish for lifetime . Our college cafeteria is place where we would spend all our leisure time . Going on visit to botanical garden as a part of educational tour is the best outing we have ever seen. Cultural activities, college day celebration, and Christmas celebrations are the programs we would wait for through out the year to have fun and relaxation as well .

A sign off quote - " No matter how much you hate your college, you will miss it once you leave " .

J.Achala

B.Sc MBC

2015- 2018

Every thought, every moment, every feeling has got its own essence, however one such lot of moments is college life. Already deciding before filling the admission form but ending up joining an unexpected college is a prevalent reason for most of us, but then, it's a proud satisfaction for me as I have had my greatest moments living in a college of my choice. To begin with, everything was new back then, then with the passage of time, there were friends, punishments, arguments, difference of opinions, competitions and these reasons combined together was who we were as a college. It was a beautiful journey in St Pious college, especially the journey of leadership which will be cherished forever. One of the best things which was learnt from Principle sister Velangani was to face all the hard time situations with the smile on the face which will make the hard times pass easy. Well, I would say St pious taught me how to be a real time hard worker and help others when they need it. I will never forget the vision of the college which was repeated every day during assembly which taught me how to empower oneself with education which was not merely classroom education but it was even about worldly morals. Faculty, college staff, all of them are unique in their own ways, and the best part is every word or advise does make a lot of sense right now as we did not have the wisdom to understand their words of betterment for us back then. I would like to thank all lecturers and sisters for guiding me and getting the best out of me.

Liya Simren

The 3 years journey is a package filled with memories, lessons, mentors and friends. St.Pious gave me an all-round experience that constantly keeps me a step ahead at my work place. The discipline created a groundwork for not only my job but also for my life. The management recognises every student's abilities and guides them accordingly. The platform to be creative, organised and on par with current developments helped me to be aware and focused towards my growth. An exposure to a healthy competition in multiple aspects helped me to explore my talents that prepared me for the future. While I learned to be efficient and accountable, the management encouraged me by giving different opportunities and recognized all the hard work. The lecturer's stand as an example for all the young students to believe that women can pursue anything and everything along with personal responsibilities. I am proud to say that St.Pious created a safe place for me and my friends to grow into the women who can achieve what we dream.

SOUMYA BANGERA

An educational institute not only builds the career of a student, figures the overall personality of that individual. I still remember the day I took my first step in St. Pious X Degree College which was a divine feeling. I am thankful to my bhaabhi Dr. S.B. Gita Narahari for joining me there when I was clueless what to do next. I couldn't have made a better choice. The discipline assimilated in the hostel and college is equivalent to any defence organisations which is indispensable at an early age of every student to grow up into a good human. Teachers and Sisters played a significant role in developing interpersonal skills and reaffirming my intellectual and scientific contributions and was afforded ample autonomy to carve out my own path. I owe whatever I am today to St. Pious College where I was shaped and given the best opportunities to reach the heights of becoming an assistant professor in a central university serving the tribal population through higher education and research in public health.

Dr. Parikipandla Sridevi

2000-2003

MGC- Microbiology, Genetics, Chemistry

A college for effective teaching and guidance in all aspects of student life with conducive atmosphere for learning, making its students to face the challenging world with ease. A college which is difficult to find elsewhere!

Vamsi Sai priya

GRACE found me and I entered St. Pious X Degree college. I was guided by my seniors and faculty and I've grabbed all the opportunities. I was in a continuous process of learning and adapting. I was elected as the vice-president and then as the President of the student body and I was also awarded the best outgoing student. St. Pious gave me a platform to exhibit, grow and to build my personality and today I'm a well groomed lady well equipped to achieve to my further goals.

Catherine Chelesea

My experience in St.Pious has been wonderful. I have learned a lot, not just academically but in all other aspects of career development. the all time support and motivation of the faculty members has enlightened me throughout this 5 yeras of wonderful journey. Today i can proudly say that i graduated understanding theoretical concepts, able to apply them, and ready to enter the professional world. Thanking for the miracle of life at pious family.

B.Hina

Bsc (MBC)

Msc (Organic chemistry)

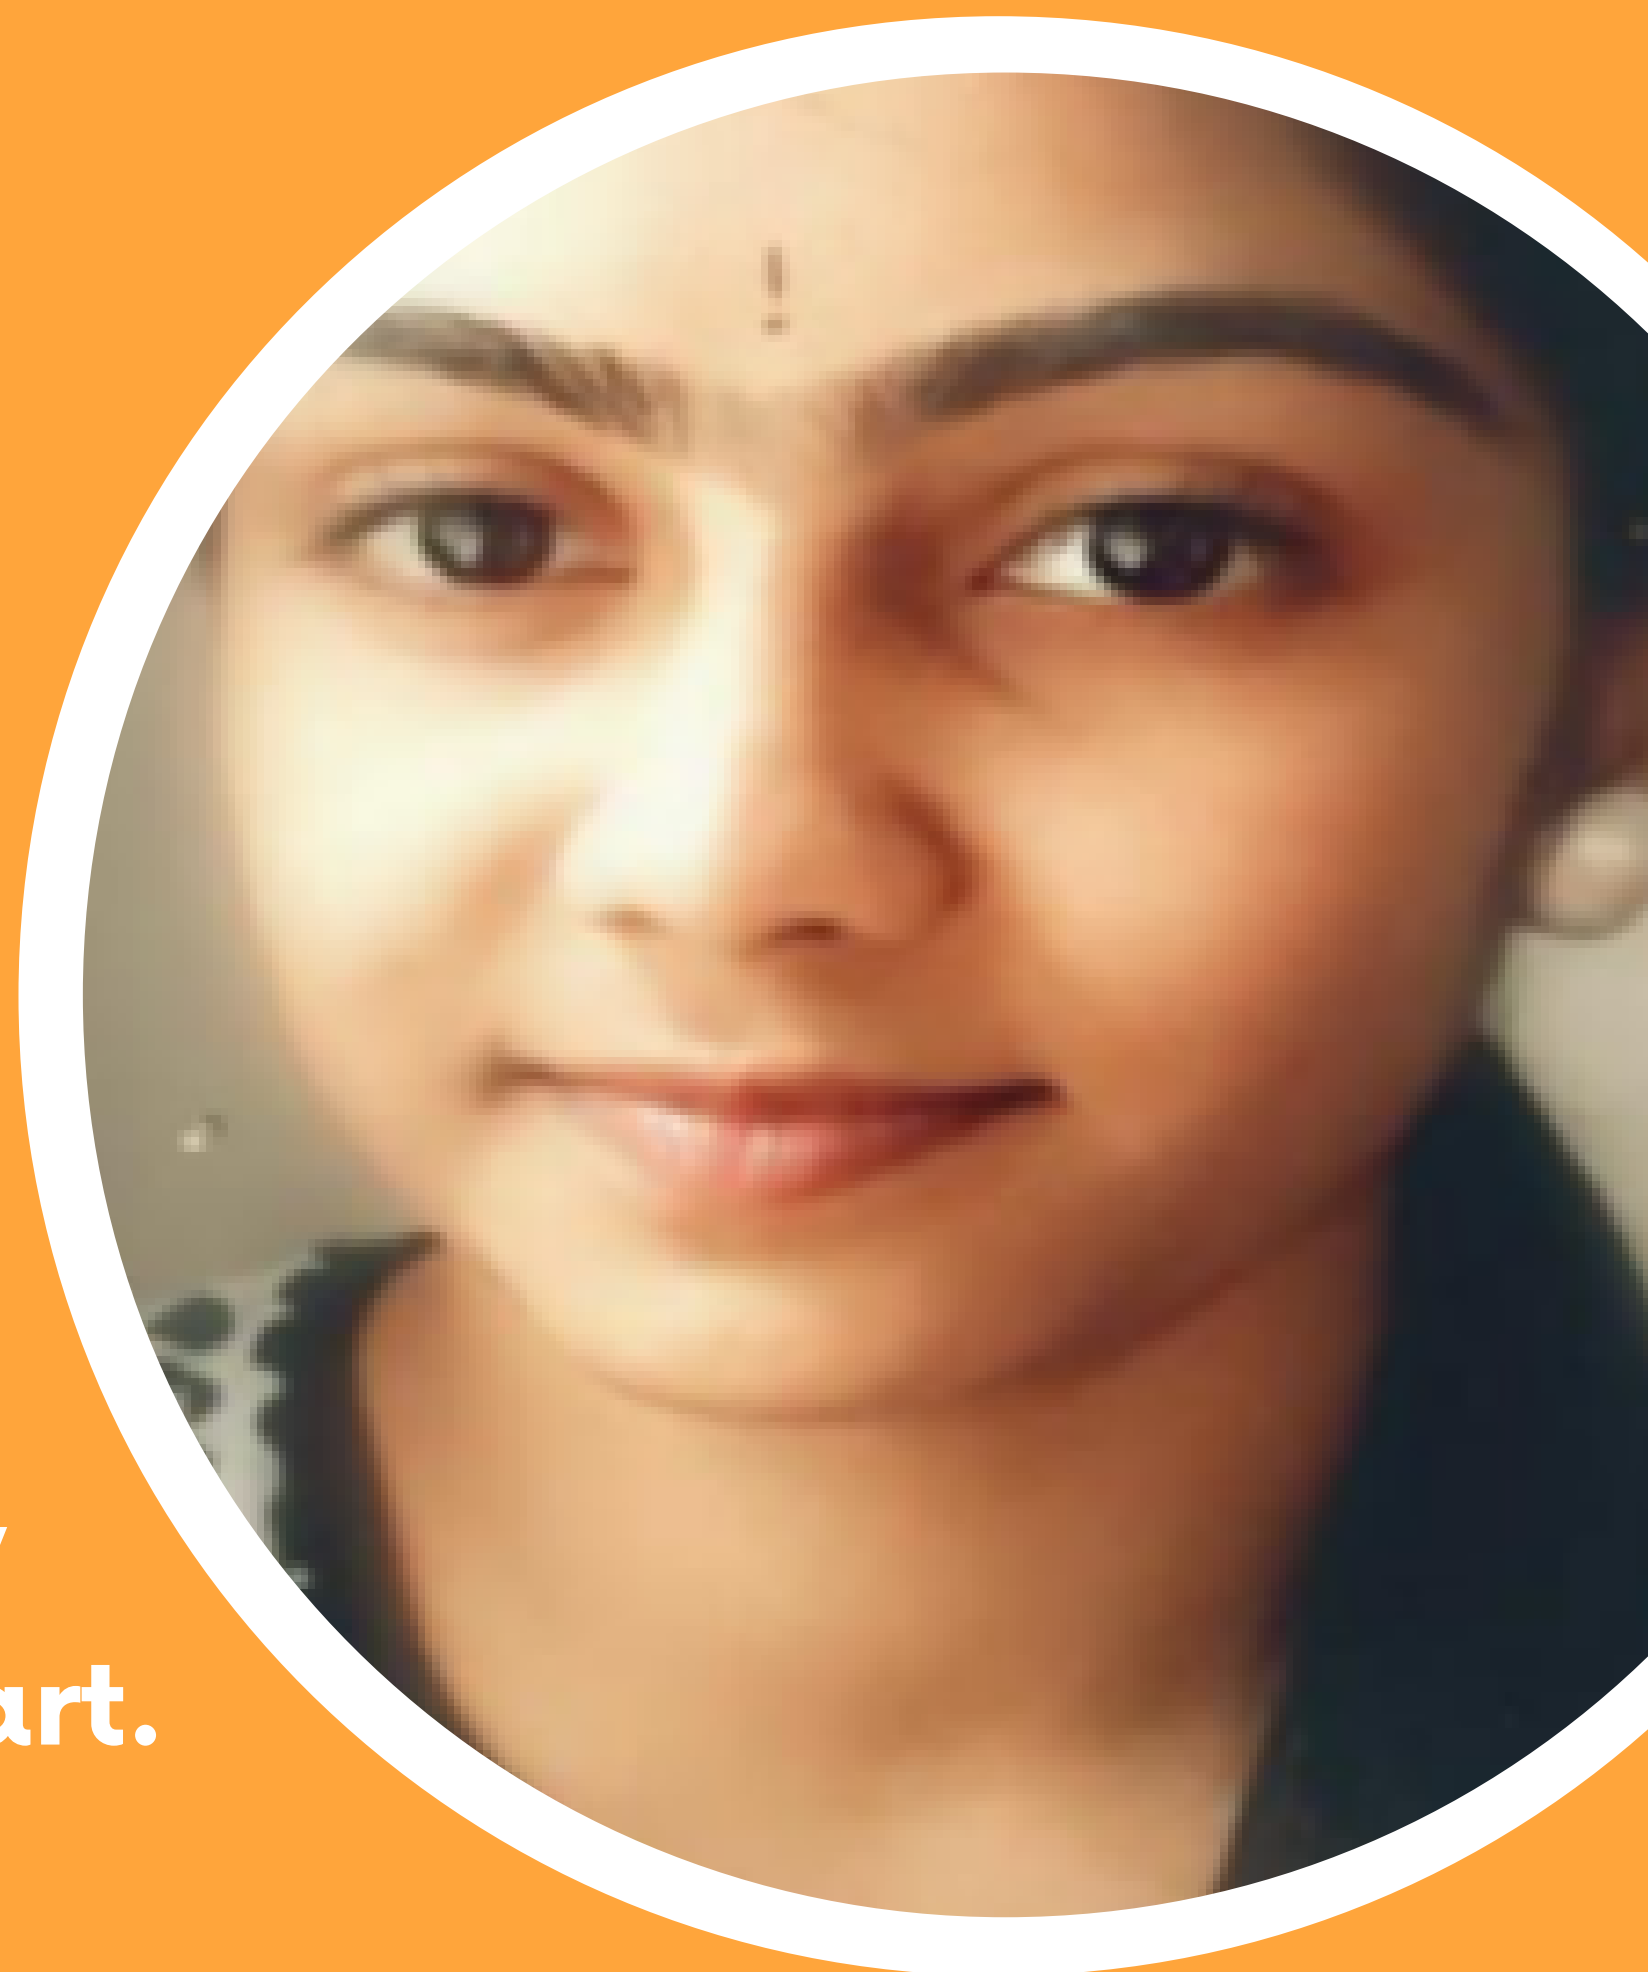

2018-2020

The day I entered to St.Pious college, I was a bit nervous that what would I do and how would I make new friends. But before that, we had an interview for admission in a college that day. Our beloved Principal Sr.Velangini took my introduction and asked me a question, 'What is special in you?' Though I didn't have much to say but still she opened my mind to explore myself there and then there started my journey in my college.

I got to know many new characters, my craziest friends ever and my own hidden talents.

This clg helped me to find the inner me too. Now I have learnt to express each and every emotion in right way. Al the lectures made me capable to handle any kind of situation. Finally, if I get a chance to live any phase of life again.. I would definitely choose my graduation part.

Love u Pious from a Piousian

B.sc-mbc(2015-2018)

Ugh! finally I have come to an unwanted end to the three wonderful, joyous, and happiest days of my Bachelor's. The day I entered the campus admiring the eco-friendly environment I was anxious, naïve thinking about friends, faculty, and the time more ahead I'm going to spend. This flashback of time is the same as I left the college campus the last day thinking I would miss everything! That fresh flowering environment for a great start of the day, a wonderful learning time with

lectures and those never-ending fun talks giggles, and laughter with friends till the end of the day. The zest of my days in St.Pious started with the friendly smile of our principal Sister Velangani during my admissions, there started my positivity.

I was just on a mission to complete my bachelor's here. But, my mission is completely different as it is an exploration of my own inbuilt-hidden character, talent, strength, capability, responsibility, and ability to face my future with the strong hope of positivity.

Penning down my experience here being in Pious would be just like an episode read, but it's a mere experience unseen and felt. My episode had characters so-called FRIENDS and LECTURERS who always showered love unconditionally, picked me up high when I was low, gave their constant support, and still guided me in the right way be it curricular or Non-curricular activities from day 1 till date. All I can say is two precious words to all my friends and specially to my dear lecturers Mrs.Grace Beena Paul and Mrs.Alka Jha from dept. of Zoology, lecturers from dept. of Microbiology, and lecturers from dept. of second languages

THANK YOU

For bringing out the different version of me and also a proud daughter for my parents.

Proud To Be A Piousian

'A Big Hug'
Batch-2017-2020

The truth is all here...I entered this college as a failure with lots of disrespect receiving from my parents due to my past performance in my Intermediate...When I joined this college my only aim was to study hard and to show a minimal grade at my academics to my parents.

The day has arrived and I nailed my examination with very good grade points, my mom and dad were in an expression of joy by seeing my performance... This College has some magic in it and the students who are studying now may think what is that great in this college to talk about..., but trust me when you leave this college you will definitely take tons of memories, experiences and lots of knowledge and also a truly trusted strong family with you.I learned the meaning of friendship here in this college...I have a friend of mine named Divya we were known to each other since our Intermediate started and together we continued our studies here at St.Pious. Never the less till date she is my happiness and sadness and never the college made us feel insecure indeed had we felt a way more bonded by the examples of our lecturers.

Lecturers are your best friends here!!! A BIG HUG to all the lecturers who have molded me like this...Pious has a great stuff in it that is every year there were elections that were conducted for the selection of Student Council Member of the college

And when the time came, the pillars of responsibility of Pious were rested on 17 member elite team on 28th July 2018, which included me as an Executive Member. The position had to face few initial defeats but very quickly caught its pace and bagged a hatrick of 3 successful events. I would fail in my duty if I don't talk about my team, who always stood by me in all victories and defeats. I trust to say that the entire team is very energetic and talented. The support, compliments and the end results for our work was always the best and it would extend to the co-operation by all the students. For me the support given by Mrs. Grace Beena Paul Ma'am and Mrs.Alka Jha Ma'am is incredible.

None of the achievements could be attained without the guidance and co-operation of our Principal Dr.Sr.Velangini and our teachers who placed their confidence in me and gave me this opportunity to prove myself as an efficient member.

Today I would take the opportunity to take all my fellow mates we all are sisters from another mother but our second home is same, they trusted me and elected me twice as class representative in which that has lead me to take part in the Student council...

This is to all my lovely juniors never concentrate on winning, rather perform your best and then sit back and chillax. The trophies will run behind you... -Kavya Sree

St.Pious X Degree & P.G College for Women:

This name itself fills joy in my heart. When I entered this college I was a little girl searching for my dreams but my life used to be like an ignorance of the works that I used to do and I used not take things very seriously.

I used to think there will be someone for me who always helps me in my life to get to my targets...but now NO-every year right from 2017-2020 each day taught me something or the other I inculcated many things and now I proudly say that I am an independent woman with my proper plans to my dreams... I would really take this opportunity to thank each and every lecturer who stood behind us to gain brilliant knowledge and I am surely taking many memories with me. I would like to thank my classmates for being the most best people around me and the bond between us is everlasting...

Library, canteen, chapel, the connecting bridge, backstage, hostel block, Zoology lab is my favorite places those places are filled with hard happiness and emotions all over and most of my three years were spent there. I would take a moment to thank Mrs. Grace Beena Paul Ma'am and Mrs. Alka Jha Ma'am who encouraged us for all the events to participate in and to know our talents thank you so much

ma'am's and I miss my UG days for ever... To all my juniors- Make the best memories that you can in these three years these are your golden years of life...

-D. Divya Sree (2017-2020)

MZC 2005-2008 batch

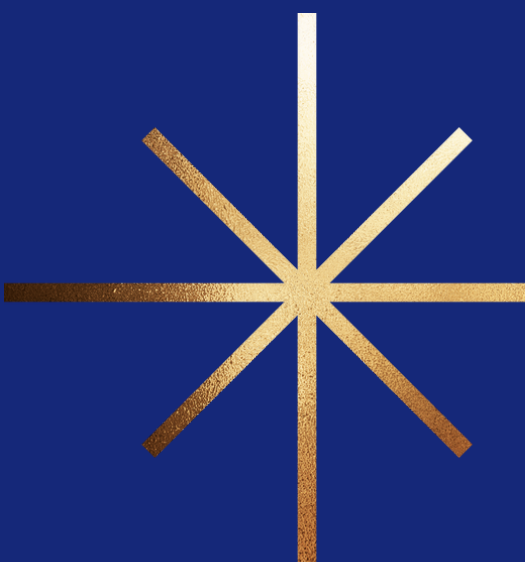

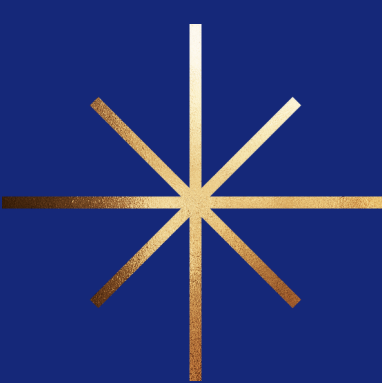

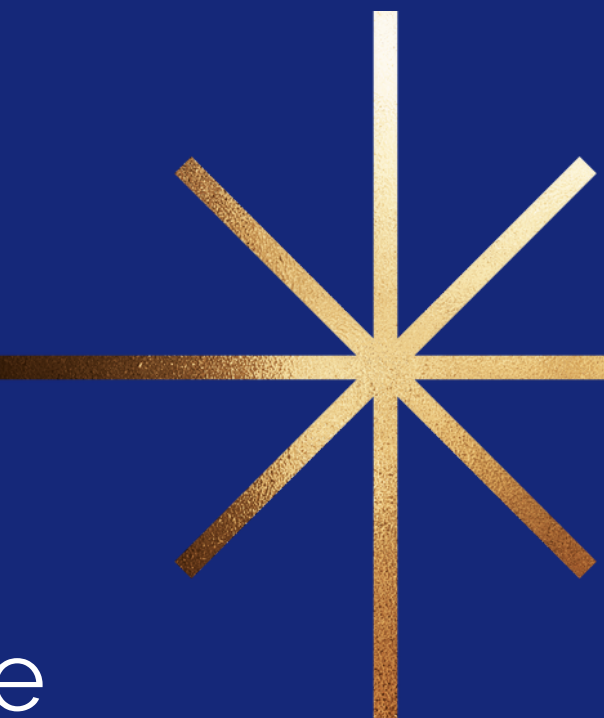

Life at St. Pious was something that will be etched in my mind forever. From spacious campus to lovely friends. From state of the art equipment to well qualified lecturers. And loads of memories! Along with quality education i also received all the skills needed to face life as such. Esp being in MZC every Saturday the value education was taken very seriously and that seriously helps me even today. Loads of prayers and well wishes to my dear college

My Reflection about St. Pious X Degree and PG
college,

I, T Sandhya Maithreyi alumini of the college has a
great privilege of being both a student and also a
rendering my services to college as a faculty
member. Inception of my journey with the college
was in 2008. St. Pious X Degree and P G college is
an adobe of knowledge, discipline which has aided
me in achieving my goals, It's a best place for not
only education alone but also overall development.

Sandhya Maithreyi Tadimeti
2008 - 2010

I Am proud to be a piousian. Hi am
Sneha Tadikamalla It's my pleasure
to share my views about college. I
have studied my bachelors at St.
Pious X Degree and P G college
which is the foundation to my
professional and personal life. The
courses offered apart from regular
curriculum make my college special.
Education is imparted in a best way
possible. Faculty play a key role who
taught us not only the subject but
also been a great support during hard
times. Words aren't enough to
express my reflections. I would like
to conclude that being a piousian is a
blessing.

Sneha Tadikamalla
2015-2018 (BSc. BC. M C)

Proud Piousian

I solemnly swear that whatever I testify here is all genuine and in truest sense all the way from my heart. Because the respect and love I have towards Pious is Pure.

I joined Pious for my Master's degree and feel very grateful as it accounts to one of the best decision I've made for myself.

But a small regret that I had all the time was, why didn't I enroll myself for graduation too at Pious.

I love how humble and helping the lecturers were at each and every step. Even while completing our Master's we were encouraged so much to take part in extracurricular activities and they made sure they conduct both stream related and off stream activities so that we come out and showcase our talents.

Talking about the campus and the infrastructure, it felt like a safe home, warm and welcoming.

Library was a dear place too, canteens coffee was an absolute must have.

The hallmark of this institution which I can swear by is No matter how small or big your talent is, at Pious it will not go unnoticed. You will not only get an institution to cater your education, but you will receive a grandstand to address and polish your talents.

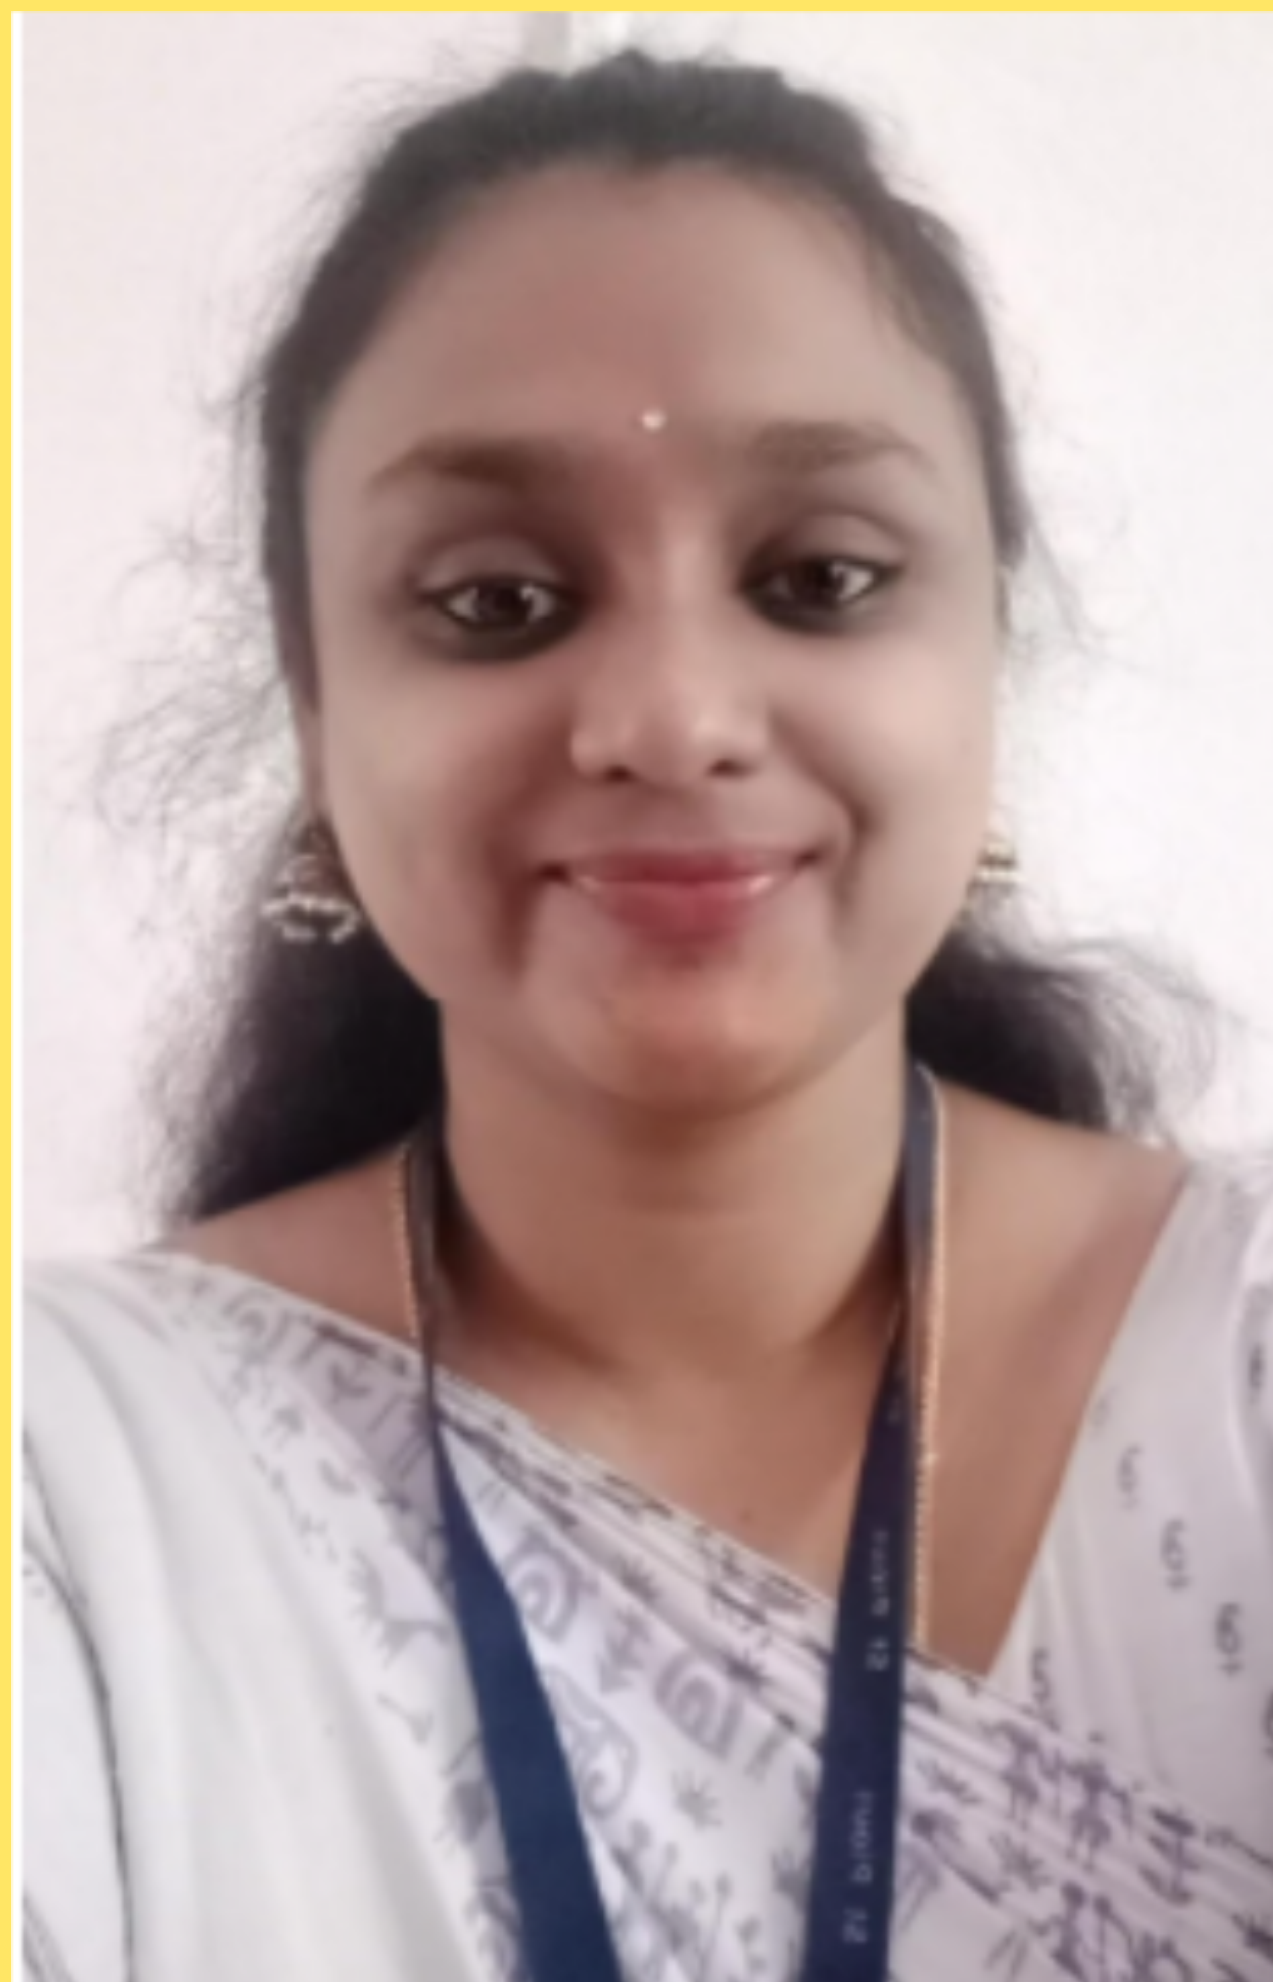

2018-2020

Subiya
M.Sc.Biochemistry
2018-2020

I, Mrs. Swathi Sree
Nandanavanam, alumni, currently
associated with this college
working as a lecturer in
department of Biochemistry .
I completed my post-graduation in
2013-2015.

Here's something magical in this
place, which will make you fall in
love with it. A experience here
turned me to a more curious and
achieving person. The support of
the faculty members not only
helped me to score good marks,
but also helped me to overcome
the flaws for being a good human
being. As a Faculty in this
institution ,Teaching has not
altered my charge as a lecturer, it
has only elevated the intensity with
which I reach out to my students
and help them acknowledge,
embrace and learn from the
disruption. "I thank my HoD
Ms.C.Vanisree and our beloved
principal Sr.B.Velangini and
correspondent Sr.Japamala who
gave me the Oppurtunity to grow
in this institution.

Proud to be a Piousian.
